The Special Education Process

The Sapphire Special Education / IEP writer software provides tools for effectively managing the overall special education process. Before looking at the tools provide in the software, it is necessary to have a clear understanding of the requirements and sequence of tasks necessary for a student to be placed in and tracked through special education.

Before a student is classified as having a special need which qualifies him for special education services, a sequence of steps must be followed. The first step in the process is identification (by a teacher, administrator, parent or other person) that a student has some exceptionality and needs to be evaluated. At that point a referral is made and the process of identifying whether the student needs special education services begins. To make this determination, a psychologist will administer tests to determine the specific exceptionality and what services are needed to address it. Before the psychologist can make the evaluation, permission must be obtained from the student's parent (or legal guardian) to do the testing. A document called "**Permission to Evaluate**" must be produced and signed by the parent. When the **Permission to Evaluate** is signed, the district has 60 calendar days to complete the evaluation and move to the next step.

The evaluation by the psychologist results in a document called the **Evaluation Report** which documents the results of the test and identifies one of three possible outcomes:

- 1) The student does not have any identifiable exceptionality and is not eligible for special education services. If this is the case, no further action is required.
- 2) The student has some exceptionality, but special services are not necessary and the student is not eligible for special education services. If this is the case, no further action is required.
- 3) The student has some exceptionality and special services to address it are necessary and appropriate, so the student is eligible for special education services. If this is the case, the district must move forward with developing an **Individualized Educational Plan (IEP)** for the student.

Once the special education needs have been determined, a team of parents, teachers, counselors, and specialists (and possible others) will be invited to a meeting to develop the IEP. A formal **Meeting Invitation Letter** is generated and sent to the selected parent/guardians. The **Meeting Invitation Letter** specifies the details and goals of the meeting, which is to develop the student's IEP. Typically, there is extensive preparation done by the school district prior to a meeting with the parent since it would be nearly impossible to complete the specifics of the IEP during such a meeting in a reasonable amount of time. So, the goals of the meeting are usually to review the prep work and obtain agreement from all parties that the IEP contents and specially designed instruction is appropriate to meet the needs identified in the evaluation.

Once the IEP is approved and adopted, the district must provide services to implement the IEP. Monitoring must take place to assure that the IEP is effective. Progress reporting intervals are established in the IEP for each of the Goals that are defined. Progress reporting then becomes part of the IEP process for the school district.

To summarize, the steps necessary to have a student identified as needing special education are:

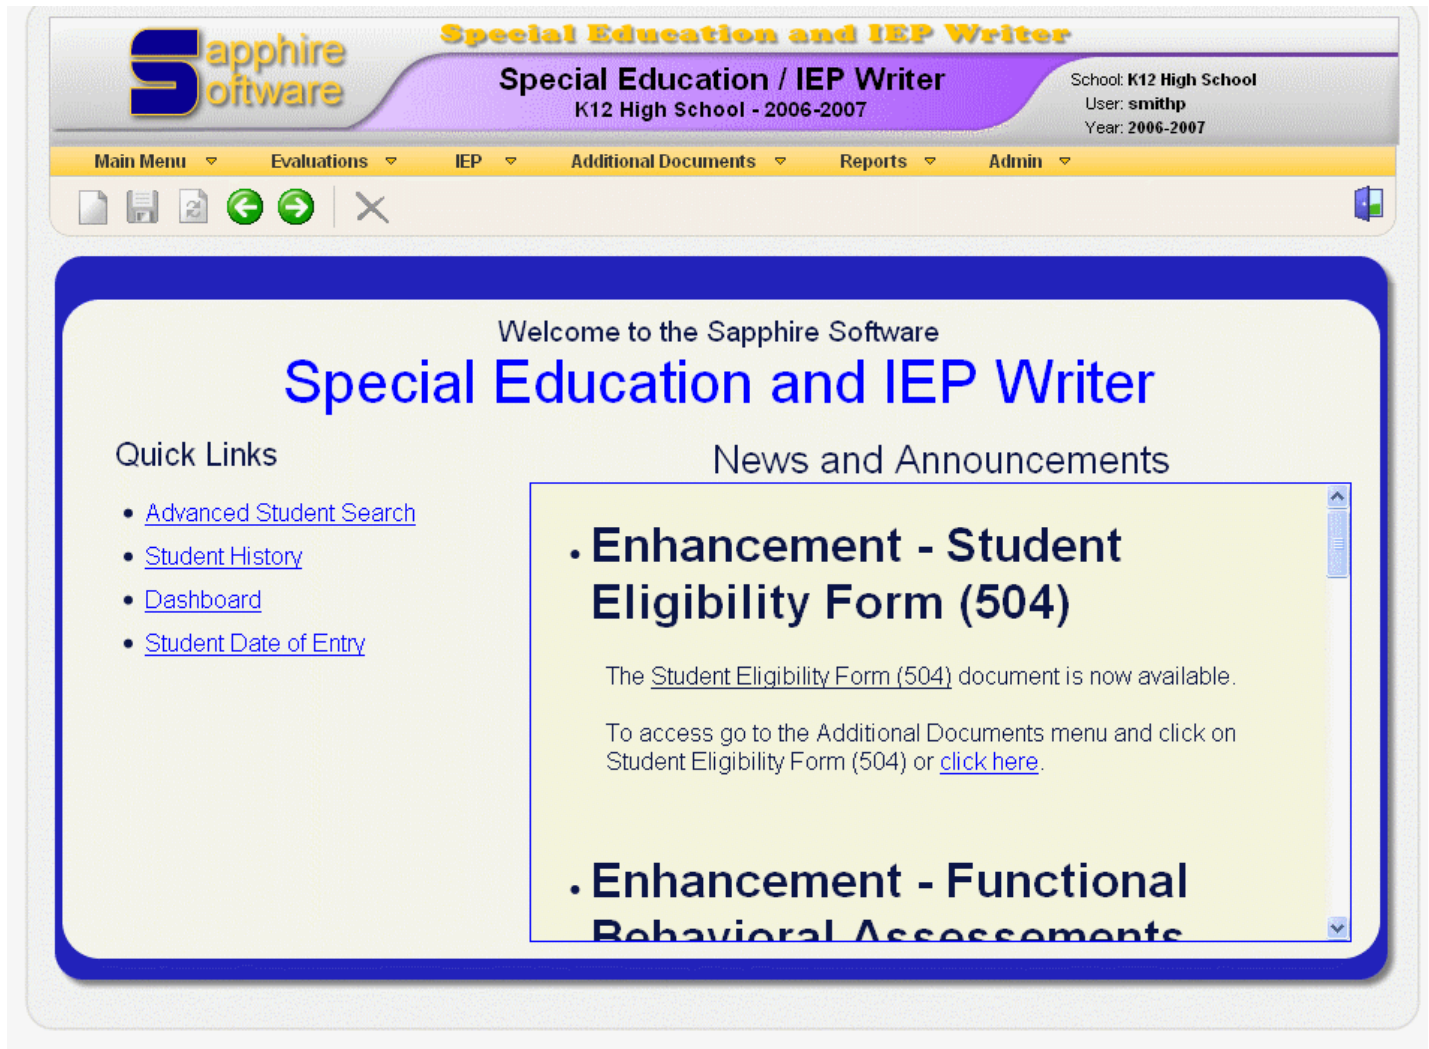

- 1) Identify that a need may exist.
- 2) Request and obtain permission to evaluate the student.

- 3) Do the evaluation and generate an evaluation report.
- 4) Gather the information necessary to develop the IPE (typically done in a multi-disciplinary team meeting).
- 5) Develop the IEP (if the evaluation indicated special services were needed).
- 6) Invite appropriate individuals to a meeting to review and adopt the IEP.
- 7) Implement the IEP and monitor the student's progress.
- 8) Reevaluate the student at the appropriate time and produce a reevaluation report.

The Sapphire Special Education / IEP writer software provides tools to assist with the production of necessary documents as required by current federal and state laws, develop the IEP for the student, track the student during his time in special education and produce required state and federal reports. The remainder of the document describes the software and the tools available in the program.

The Special Education / IEP Writer Interface

When a user logs on to the SE/IEP they will always start at the Landing Page shown below.

This screen is divided into two sections. On the right side of the screen is the user News and Announcements section. Here K12 will display information about items that are **new** and items that are **coming soon**. On the left side of the screen are links to for quick access to commonly used screens.

Navigation in the SE/IEP software is always done through the items on the **yellow menu bar** and the **tool bar** below it. Moving the mouse over any menu item will produce a drop down from which you select the desired function. The tool bar has icons that provide access to various common functions. Hovering the mouse pointer on any tool icon will display a tool tip with the function of the icon. **ALL NAVIGATION IN THE SOFTWARE SHOULD BE DONE VIA THE MENUS OR TOOLS. DO NOT USE THE BROWSER'S BACK AND FORWARD BUTTONS.**

Auto logout. If the servers detect 1 hour of inactivity you will be automatically logged off the system. Activity is defined as any Save operation, navigating to a new screen through the menus, or changing tabs on a screen. If none of these have occurred for 1 hour, your session will time out.

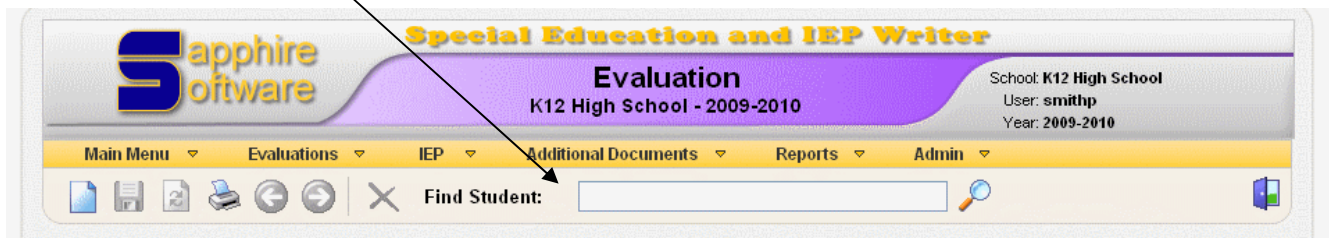

Accessing a Student's Records

Individual student records can be retrieved in several ways. These include:

- Selecting a student using the **Student Search** tool.
- Using the **Advanced Student Search** from the menu
- Using **Student History** from the menu (*see the section Looking at Student History*)

Using the Student Search tool.

The Student Search Tool will be displayed anytime you are working on a document and when you attempt to open a document but have not yet designated a student. The tool will be displayed on the tool bar as **Find Student**

This search function is very powerful and will help you quickly access the information with which you want to work. There are numerous ways that you can search for a particular student's record.

- Type a portion of the student's first or last name. The software will display a list of potential matches from which you can select the desired record by clicking on it.
- Begin typing the student ID or Student State ID. The software will display a list of potential matches from which you can select the desired record by clicking on it.
- Search by criteria:
 - Grade (gr)= *desired grade*: displays a list of students from the specified grade
 - Homeroom (hr)=*desired homeroom*: displays a list of students from the specified homeroom
 - First Name (fn) = *desired first name* displays a list of students with that first name
 - Last Name (ln) = *desired last name*. displays a list of students with that last name
 - ~ (sounds like) *desired sound of name* will look for names that sound like the string you enter

Example: I know the student's name sounds like "mic....something" but that's all I know. You can find students with that sound in their name by entering
~ mich (sounds like *mich* something)

- You can have the software display more results by indicating a skip value.
Example: gr = 10 skip 20. This will skip the first 20 students in grade 10 and start displaying the list from there.

Notice that the names are color coded. Pink is female, blue is male. A greyed out line indicates the student is enrolled in a different building. If there is a line through the student's name it indicates he has withdrawn.

This screen provides fields for specifying search criteria. There are numerous options to allow specification of criteria to facilitate finding a student.

The Quick Lookup function

When student is selected, their name will always be displayed in the top section of the screen bracketed by a set of pointy braces (>> name <<). When you point to the name, the cursor changes to a hand. Clicking on the name will open a read only window from which you can quickly access much of the data recorded for the student in the SIS. This is the **Quick Lookup** function in SIS and is available from any screen that shows the student's name between braces. Clicking on the student name to launch the Quick Lookup will open the window shown below:

Making a Student Referral

As stated, the initial step in the process is to make a referral indicating that a special need is suspected. This is done in the software by selecting **Main Menu > Student Referral** from the menu bar. (*It is assumed that users have had basic instruction on the Sapphire product and know how to use the search tool. Refer to the SIS Training Manual Overview and Demographics for more details.*)

Most of the fields on the top section are self explanatory and will be completed as appropriate. *As is the case throughout the product, the contents of the various drop-down selections in a field are defined by a corresponding dictionary. Maintenance of the dictionaries to reflect the unique needs of the district is done through the **Admin/Clip Text and Dictionaries/Dictionaries** menu. The user must have appropriate security rights to modify these dictionaries.*

The bottom section of the screen is partitioned into various areas of concern. The areas listed are determined by the contents of the **Areas of Concern** dictionary. Within each area are two columns. The left hand column lists student concerns. The right hand has a list of all available concerns as identified in the **Area of Concerns Codes** dictionary. To include an item from the Available Concerns in the list of Student Concerns either double click on the item or select an item or items and click on

the left pointing braces. (To make multiple selections use the shift or control keys on a PC, or the cmd keys on a Mac). To remove a concern from the Student's List you use the same process.

Producing the Permission to Evaluate Document

The next step in the process is to produce a document requesting from the parent or guardian permission to evaluate the student. This is done by selecting **Evaluations>School Age>Permission to Evaluate**. Use the Student Search to select the student for whom the permission is being requested. After designating the student, the screen below is shown. There are five tabs on this screen.

The Contacts Tab

The screenshot shows the 'Permission to Evaluate' form for a student named Genevieve Holohan (328), who is enrolled in Grade 12. The form is titled 'Special Education and IEP Writer' and 'Permission to Evaluate K12 High School - 2009-2010'. The user is 'smithp' and the year is '2009-2010'. The form has a navigation bar with tabs: Main Menu, Evaluations, IEP, Additional Documents, Reports, and Admin. Below the navigation bar is a 'Find Student' search bar. The main content area has a header for 'Genevieve Holohan (328)' and 'Enrolled - Grade: 12'. There are five tabs: CONTACTS, REASON REFERRED, TESTS AND ASSESSMENTS, STAFF CONTACT AND CONSENT, and EVALUATION LOG. The 'CONTACTS' tab is selected. The form contains the following fields and options:

- Evaluation Report:** Create a new Evaluation Report (dropdown menu)
- Evaluation Type:** Select Evaluation Type ... (dropdown menu)
- Letter to Print:** Permission to Evaluate Student (dropdown menu)
- Standard:** PA2 - PA Standard - July 2008 (dropdown menu)
- Send Letter To:**
 - ☐ Mailing Address: Genevieve Holohan (Lives with)
 - ☐ Mother: Mary Holohan (Lives with)
 - ☐ Father: William Holohan

Evaluation Report: Select Create a New Evaluation Report to create a new letter. (To reprint a previous letter or change the data on any fields of a prior report, select the appropriate report from the drop down list)

Evaluation Type: Choose Initial Evaluation.

Letter to Print: Select Permission to Evaluate Student (the default).

Standard: Specify which of the available state standards will be used. You will always want to use the most current standard.

Send Letter To: Check the individuals to whom the letter will be addressed. The list of contacts is taken from the Contacts list for a student as defined in the SIS demographics.

When the fields on this tab are filled in click Save to create the new permission to evaluate.

The Reason Referred Tab

CONTACTS **REASON REFERRED** **TESTS AND ASSESSMENTS** **STAFF CONTACT AND CONSENT** **EVALUATION LOG**

Evaluation Report: **Evaluation Type:**

Your child has been referred for evaluation for the following reason(s):

☐ 3 Year Mandate/Routine
☐ 2 Year Mandate/Routine
☐ Additional Assessment Needed
☐ Newly Enrolled Student with Disability
☐ MDT Meeting Requested
☐ Other

OR

We are planning to reevaluate your child for the following reason(s):

☐ The IEP team has reviewed existing evaluation data concerning your child and made the recommendation that there is a need for more information about your child. Additional information needed includes:

☐ Parent request for evaluation.
☐ Other (Please Specify):

OR

The LEA is recommending that a reevaluation is unnecessary at this time because:

This Screen is multi-functional and is partitioned into three sections specifying one of three actions. These actions are:

Planning to evaluate the child and the reason (*Reason lists is maintained in the Referral Reasons Dictionary*).

OR

Planning to reevaluate the child and reasons

OR

Recommending that a reevaluation is not needed and why.

Check the appropriate box. If necessary, enter the text to document the reason by clicking on the edit icon on the right of the text box. This will open the rich text editor (see the section Using the Rich Text Editor for more information). *Directions on using the editor are in the section titled Using the Rich Text Editor.*

The Tests and Assessments Tab

The screenshot shows the 'Tests and Assessments' tab selected. At the top, the student's name 'Genevieve Holohan (328)' and grade 'Enrolled - Grade: 12' are displayed. Below the navigation tabs, there are two dropdown menus: 'Evaluation Report:' with the option 'Create a new Evaluation Report' and 'Evaluation Type:' with the option 'Select Evaluation Type ...'. The main section is titled 'The evaluation will utilize the following tests and procedures:'. It contains two columns: 'Tests and Assessments' and 'Assessor'. Under 'Tests and Assessments', there are four checkboxes: 'Functional Behavior Assessment', 'Reading and Math Assessments', 'Gifted Behavior Rating Form', and 'Other Assessments'. Each checkbox is followed by a dropdown menu for the 'Assessor'.

Specify the type of tests and assessments that will be used and identify the person or agency (assessor) who will administer the test. *(The list of tests is stored in the Test Types dictionary. You can specify each test as available in Special Ed, Gifted or Both. The assessor's names are stored in the Roles dictionary)*

The Staff Contact and Consent Tab

The screenshot shows the 'Staff Contact and Consent' tab selected. At the top, the student's name 'Genevieve Holohan (328)' and grade 'Enrolled - Grade: 12' are displayed. Below the navigation tabs, there are two dropdown menus: 'Evaluation Report:' with the option 'Create a new Evaluation Report' and 'Evaluation Type:' with the option 'Select Evaluation Type ...'. The main section is titled 'Dates and Staff Contacts:'. It contains several fields: 'School Contact:' with the value 'Howe, Howe', 'Contact Position:' with the dropdown 'School Psychologist', 'Contact Phone:' with the value '570-223-0765', and 'Contact Email:' with the value 'jhoweD@k12.com'. Below these are two date pickers: 'Permission Sent:' and 'Received Consent:', both with calendar icons. At the bottom, there is a text area for 'Other Comments:'.

Complete the fields as appropriate. The **School Contact** field is a search field, so typing a name will begin a search for names (similar to the student search). The names which are searched are individuals who are identified as staff in the SIS.

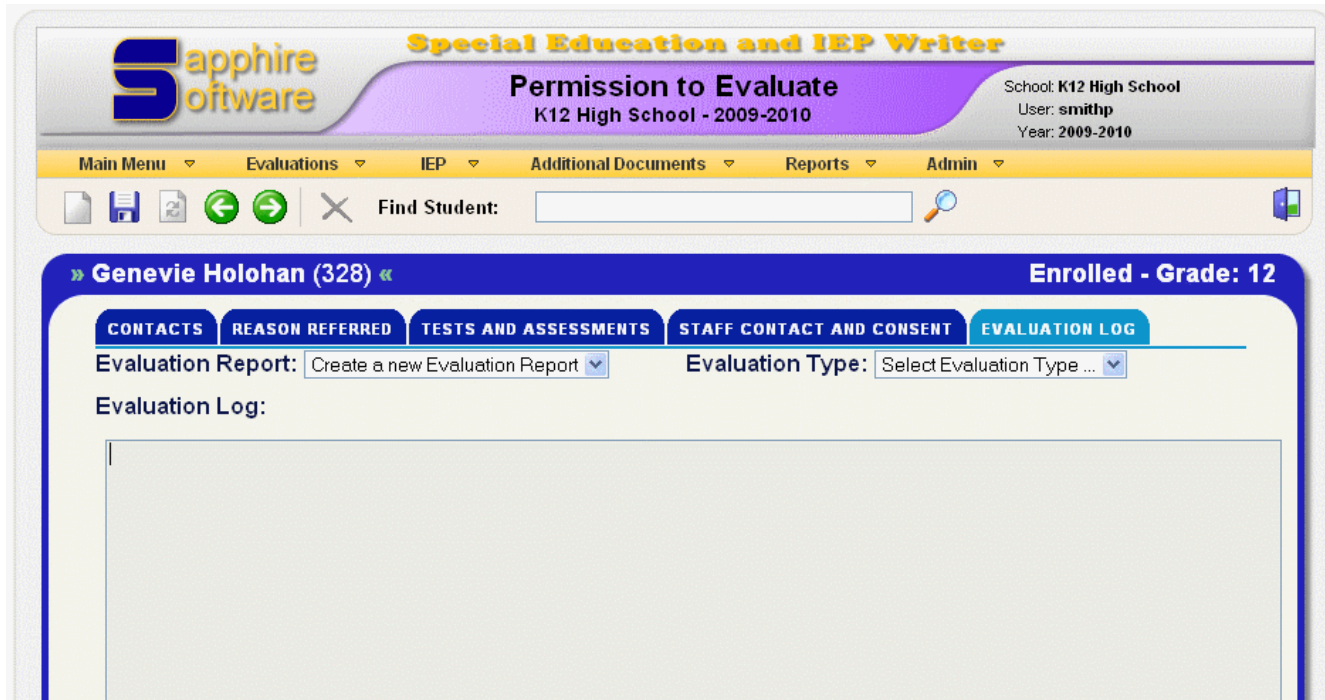

NOTE: The district (and user) can specify default values that should be used in the School Contact field by specifying these defaults using **Admin>Options>District Options**. See the section titled **Setting District and User Options** for details

The **Contact Position** field is a drop down list and is **NOT** tied to the School Contact field above. *(This is because the contact may have multiple positions in the district and the software has no way to know what position is appropriate for the specific case)*

Be sure to complete the **Permission Sent** field with the date the permission to evaluate letter is sent. Return to this tab to complete date in the **Received Consent** field when the parent/guardian responds with permission to evaluate. *(The date entered here will be recorded and will display in the Student History in the Evaluation History tab. This date is also the basis from which the due date by which the district must submit the evaluation report to the parents is determined).*

You may add any **Other Comments** relative to the letter by clicking on the edit icon (on the right) to open the rich text editor. *Directions on using the editor are in the section titled Using the Rich Text Editor.*

Evaluation Log Tab

The screenshot shows the 'Permission to Evaluate' form for 'Genevieve Holohan (328)' in 'Grade: 12'. The form is titled 'Special Education and IEP Writer' and 'Permission to Evaluate K12 High School - 2009-2010'. The user is 'smithp' and the year is '2009-2010'. The form has a navigation bar with 'Main Menu', 'Evaluations', 'IEP', 'Additional Documents', 'Reports', and 'Admin'. Below the navigation bar is a 'Find Student' search bar. The 'EVALUATION LOG' tab is selected, showing 'Evaluation Report: Create a new Evaluation Report' and 'Evaluation Type: Select Evaluation Type ...'. The 'Evaluation Log' section is empty.

This tab shows what letters have been printed, for whom and the date. It is informational.

Printing the Permission to Evaluate Letter

When all tabs are completed, **save the record**. To print a copy of the letter, click on the printer icon in the tool bar. A document will be prepared and downloaded as a pdf. Depending on your browser settings the document will either open directly, or you will be given a choice of how to handle the file.

This completes step 2 in the process: **Request and obtain permission to evaluate the student.**

This tab provides fields to record who participated in the evaluation and whether or not each agrees with the evaluation.

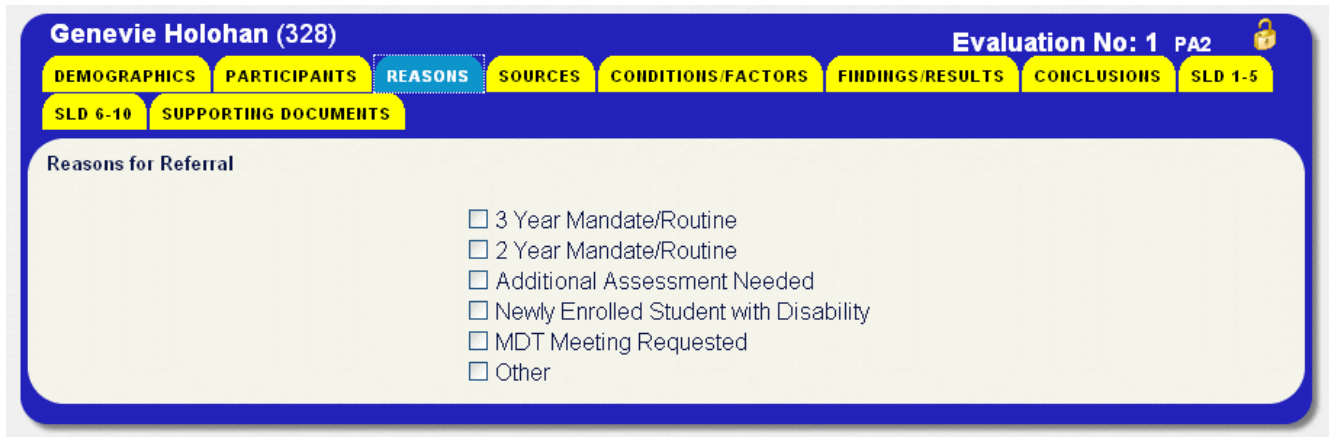

The **Student Contacts** section records which of the student's contacts participated in the evaluation. There will be one line for each person in the student contacts in the SIS. For each contact, indicate if they agree with the Assessment by choosing Yes or No from the drop down list. in the **Agrees w/ Assess** field. The **Sequence** field records the order in which the names should appear on reports. Enter an integer (ie 1, 2, 3...).

The **Staff Members** and associated **Name** fields records which staff members participated in the evaluation. The values in the drop down list are contained in the **Roles** dictionary. Select the appropriate role. The **Name** field is a search box and works like the Student Search tool. The names that are returned are selected from those individuals identified as staff in the SIS...Select the appropriate name from the results of the search. For each staff member, indicate if they agree with the Assessment by choosing Yes or No from the drop down list. in the **Agrees w/ Assess** field. The **Sequence** field records the order in which the names should appear on reports. Enter an integer (ie 1, 2, 3

The **Other Attendees** and associated **Name** fields records any other participants. The values in the drop down list are contained in the **Roles** dictionary as above. The difference between this section and the Staff Members section is that these individuals are NOT staff members. The name field is simply a text entry field rather than a search box. For each attendee, indicate if they agree with the Assessment by choosing Yes or No from the drop down list. in the **Agrees w/ Assess** field. The **Sequence** field records the order in which the names should appear on reports. Enter an integer (ie 1, 2, 3...)

To remove an individual from the list of participants, click on the Delete icon (the red X). The Name will go to a blank as soon as you click delete. When the screen is saved, both the Role will be removed from the list as well, effectively removing the entire line.

The Reasons tab

The screenshot shows a software interface for a student named Genevieve Holohan (328). The interface has a blue header bar with the student's name on the left and 'Evaluation No: 1 PA2' on the right. Below the header is a row of yellow tabs: DEMOGRAPHICS, PARTICIPANTS, REASONS (which is highlighted with a blue border), SOURCES, CONDITIONS/FACTORS, FINDINGS/RESULTS, CONCLUSIONS, and SLD 1-5. Below the tabs are two more yellow tabs: SLD 6-10 and SUPPORTING DOCUMENTS. The main content area is titled 'Reasons for Referral' and contains a list of five reasons with checkboxes: '3 Year Mandate/Routine', '2 Year Mandate/Routine', 'Additional Assessment Needed', 'Newly Enrolled Student with Disability', 'MDT Meeting Requested', and 'Other'.

DETERMINATION OF SPECIFIC LEARNING DISABILITY

1. The student does not achieve adequately for the student's age or meet State-approved grade-level standards in one or more of the following areas when provided with learning experiences and scientifically based instruction appropriate for the student's age or State-approved grade level standards and level of English language proficiency: oral expression, listening comprehension, written expression, basic reading skill, reading fluency skills, reading comprehension, mathematics calculation, and mathematics problem-solving:

2. Check below to identify the process(es) used to determine eligibility.

☐ Response to Scientific Research-Based Intervention (RtI). Document these criteria:
The student does not make sufficient progress to meet age or State-approved grade-level standards in one or more of these areas: oral expression, listening comprehension, written expression, basic reading skill, reading fluency skills, reading comprehension, mathematics calculation, and mathematics problem-solving:

☐ Severe Discrepancy between Intellectual Ability and Achievement. Document these criteria:
The student exhibits a pattern of strengths and weaknesses in performance, achievement or both relative to age, standards or intellectual development:

These two tabs provide fields to document the determination of the student's specific learning disability. **There are 10 total fields, 5 on each tab.** Complete these fields as needed by clicking on the edit icon or double click in the field to open the rich text editor (see the section Using the Rich Text Editor for more information).

Be sure to save the Evaluation Report by clicking on the Save icon

Supporting Documents Tab.

Refer to the section **Attaching Ancillary Documents to Special Ed Documents** for details on using this tab.

Printing the Initial Evaluation Report

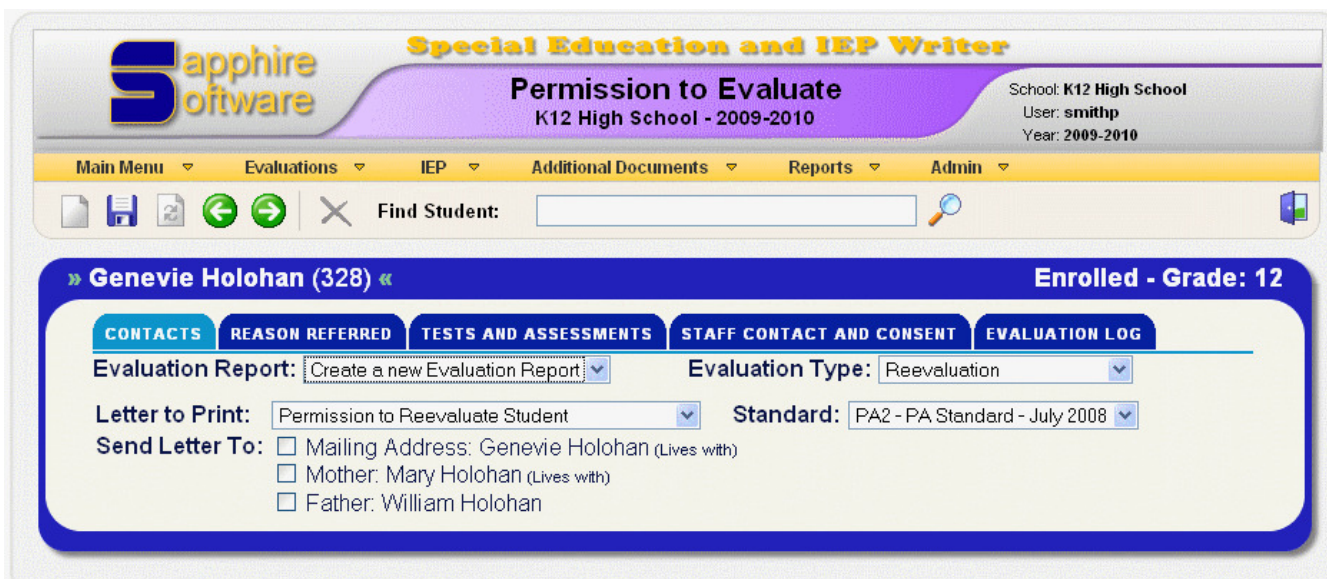

Be sure the Evaluation Report is saved. To print the evaluation report, click on the Print icon while the Evaluation Report screen is open. *(If the initial evaluation is not open, select **Evaluations> School Age>Initial Evaluation** and select the student).* This will produce a PDF. How the PDF is handled depends on the browser.

As is the case with an initial evaluation, the reevaluation process begins by notifying the parent/guardian of the intent to reevaluate the student and obtaining permission to do the reevaluation. Once the permission has been obtained, you can move forward and do the reevaluation report.

Naturally, before a re-evaluation can be done, an initial evaluation must have been completed. At the present time there is no mechanism in the software to prevent an attempt to do a re-evaluation when an initial evaluation does not exist. It is the user's responsibility to complete the steps logically.

Producing the permission to reevaluate letter.

Select **Evaluations>School Age>Permission to Evaluate**. This will display the Permission to Evaluate screen.

This is the same screen displayed when doing an initial evaluation. There are two fields that need to be set to designate this is a reevaluation. These are:

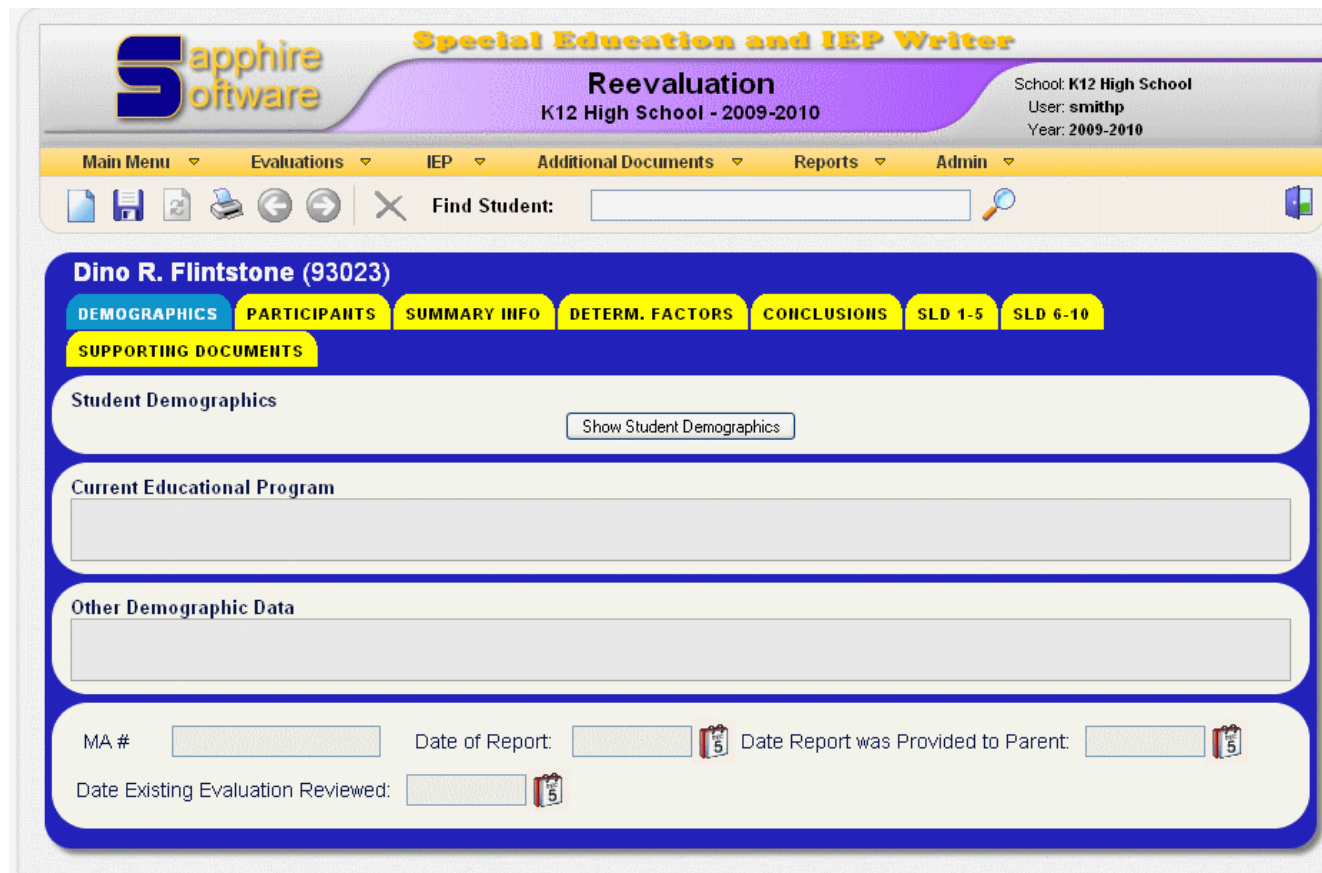

Evaluation Type: Select Reevaluation

Letter to Print: Select Permission to Reevaluate

The remaining tabs are the same as those on the initial evaluation. The difference will be in the letter that is produced.

Producing the Reevaluation Report

Select **Evaluations>School Age>Reevaluation** from the menu. This displays the Reevaluation screen shown below. It will open on the Demographics tab.

Technically the next step would be to invite parents and other parties to an **IEP Review meeting**, which would indicate that the next step in the software is to prepare the IEP Meeting Invitation. The ostensible purpose of this IEP Review meeting is the **development** of the student's IEP. . In theory, the IEP should be developed during the IEP Review Meeting.

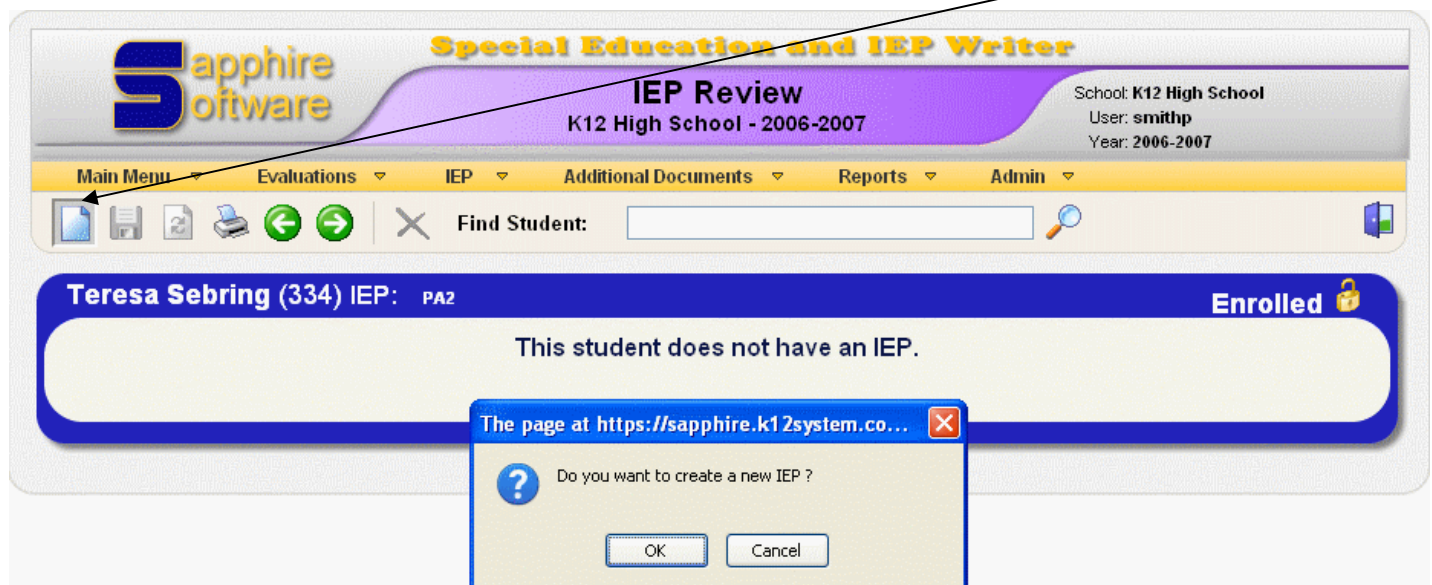

However, it is common to have at least a partially completed the IEP so that there is something to discuss during the meeting. **For this reason, it is likely that in practice, the next step will be to complete the IEP Review screens.** Once the IEP is at least partially developed, the invitation to attend the IEP review meeting can be done. However, using the screens can be completed in either order.

Creating a New IEP

To develop a new IEP, select **IEP>School Age>IEP Review**. Select the student to work with using the Student Search. If the student does not have an IEP, a message will be displayed stating that (shown below)

Click OK to continue. The screen shown below will be displayed. To create a new IEP, click the New icon Respond to the resulting dialog by clicking OK.

This will open the screens on which you will record the details of the IEP.

Working with an Existing IEP

Select **IEP>School Age>IEP Review** and select a student using the search tool. If an IEP for this student exists, it will be opened. If more than one IEP exists for the student, the most recent will open.

To work with an IEP other than the most recent select **Main Menu>Student History**. Click on the IEP History tab. Double click on the IEP with which you wish to work.

Developing a New IEP by Modifying an existing IEP

It is common to need to develop a new IEP based on an existing one. On the Student's IEP History there is an icon on each line to copy the IEP. Clicking that icon will display a prompt asking if you wish to make a copy of the IEP. Click OK. The copy will then become the most recent IEP, so to modify it, return to **IEP>School Age>IEP Review**. The copy will then open and can be modified as needed.

Special Considerations the IEP Team must consider before developing the IEP.
Any factors checked must be addressed in the IEP.

Is the Student visually impaired or blind?

☐ Yes - Team must provide for instruction in Braille and the use of Braille unless the IEP Team determines, after an evaluation of the child's reading and writing skills, needs and appropriate reading and writing media (including an evaluation of the child's future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate.

☒ No

Is the Student hearing impaired or deaf?

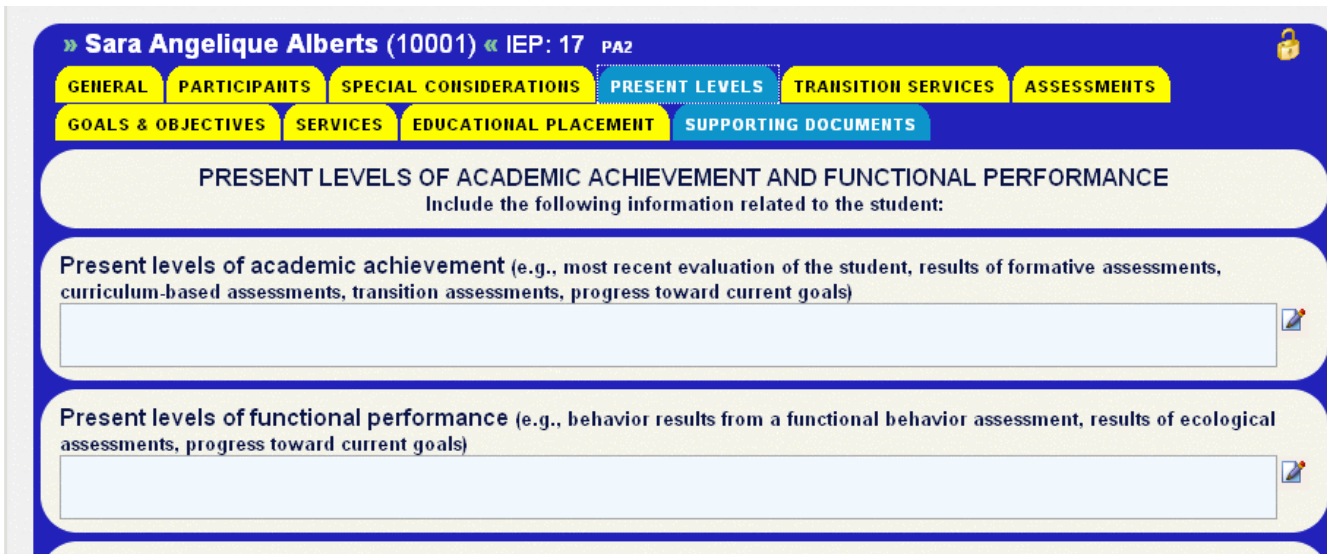

☐ Yes - Team must consider the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode in the development of the IEP.

☒ No

TRANSITION SERVICES - This is required for students age 14 or younger if determined appropriate by the IEP team. If the student does not attend the IEP meeting, the school must take other steps to ensure that the student's preferences and interests are considered. Transition services are a coordinated set of activities for a student with a disability that is designed to be within a results oriented process, that is focused on improving the academic and functional achievement of the student with a disability to facilitate the student's movement from school to post school activities, including post secondary education, vocational education, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation that is based on the individual student's needs taking into account the student's strengths, preferences, and interests.

POST-SCHOOL GOALS: Based on age appropriate assessment, define and project the appropriate measurable post secondary goals that address education and training, employment, and as needed, independent living. Under each area, list the services/activities and courses of study that support that goal. Include for each service/activity the location, frequency, projected beginning date, anticipated duration, and person/agency responsible.

NOTES: The values in the Collection drop down list are taken from the Goal Collections dictionary.

The Seq (Sequence) field allows the user to specify what position in the goals list this particular goal should occupy. As goals are created, the system sequences them in the order created (by 10's). For example, suppose the users defined three math goals (Math A, Math B, and Math C) then defined two Language goals (Lang A, Lang B), then defined a fourth Math goal (Math D) The system would have the sequence

- 10) Math A
- 20) Math B
- 30) Math C
- 40) Lang A
- 50) Lang B
- 60) Math D

If the user wanted to re-order the way the goals are sequenced (perhaps to group the Math goals together) he can specify that Math D should be Seg 35. In essence, the system will order the goals by the sequence number so they will be ordered as follows:

- 10) Math A*
- 20) Math B*
- 30) Math C*
- 35) Math D*
- 40) Lang A*
- 50) Lang B*

If two goals are assigned the same sequence, they will just appear one after the other.

EXPLANATION OF QUESTIONS FOR IEP TEAM

It is the responsibility of each public agency to ensure that to the maximum extent appropriate students with disabilities, including those in public or private institutions or other care facilities, are educated with children who are not disabled. Special classes, separate schooling or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular education classes, EVEN WITH the use of supplementary aids and services, cannot be achieved satisfactorily.

QUESTIONS FOR IEP TEAM

- What supplementary aids and services were considered? What supplementary aids and services were rejected? Explain why the supplementary aids and services will or will not enable the student to make progress on the goals and objectives (if applicable) in this IEP in the general education class.

This tab provides a screen with fields to record any Services and Support the student will receive, the school where the IEP will be implemented, and fields for recording the student's placement with non-disabled students. *(There are more fields than shown on the above screen shot).*

Working with Gifted Documents

The following documents are included in the IEP Writer and correspond to the latest State (PA) standards

- Gifted Permission to Evaluate Letter
- Gifted Permission to Reevaluate Letter
- Gifted Written Report - Evaluation
- Gifted Written Report - Reevaluation
- Invitation to Participate in the GIEP Team Meeting
- Notice of Recommended Assignment (NORA)
- Gifted Individualized Education Program (GIEP)

The following sections cover the processes necessary to produce these documents

Gifted Permission to Evaluate – Permission to Reevaluate

Select **Evaluations>Gifted Evaluations>Permission to Evaluate/Reevaluate** from the menu
The following screen will be displayed:

Enter the name or student ID in Find Student search box to select the student with whom you wish to work. The following screen will be displayed:

There are four tabs on this screen. Each tab provides fields to record various information necessary to prepare the Permission to Evaluate / Intent to Reevaluate document.

Contacts tab:

(see above)

Evaluation Report: This field allows you to select the Evaluation Report with which you wish to work. Clicking the down arrow will display a list of any existing evaluations. If you are preparing a new Permission to Evaluate, select New Evaluation Report. To work with an existing letter select it from the list

Evaluation Type: Select Initial Evaluation or Reevaluation as appropriate

Letter to Print: Specify **which letter you want to produce** by selecting from the choices listed in the drop down list. The options will be Permission to Evaluate or Notice of Intent to Reevaluate. Be sure the Evaluation Type and Letter to Print correspond.

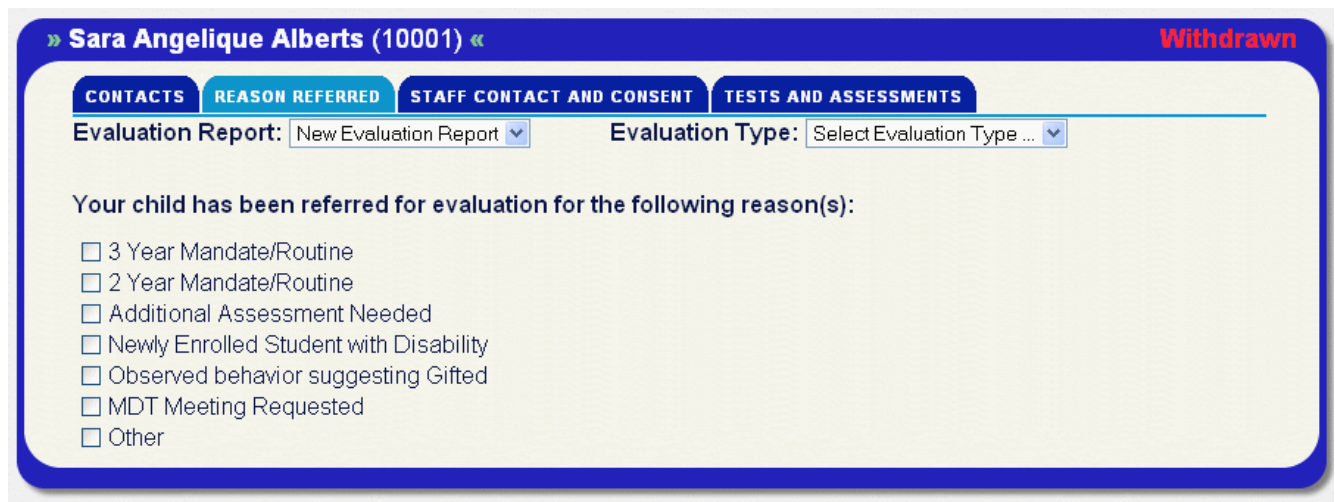

Standard: This will default to the most recent PA standard.

Send Letter To: Check the individuals to whom this letter should be sent. The list displays the names of individuals designated to receive mailers in the SIS. The letter that is produced will show the names of the selected persons. The system does not produce multiple copies of the letter.

Oral / Written request check boxes and dates: Check the box which applies. Enter the date of the request if know.

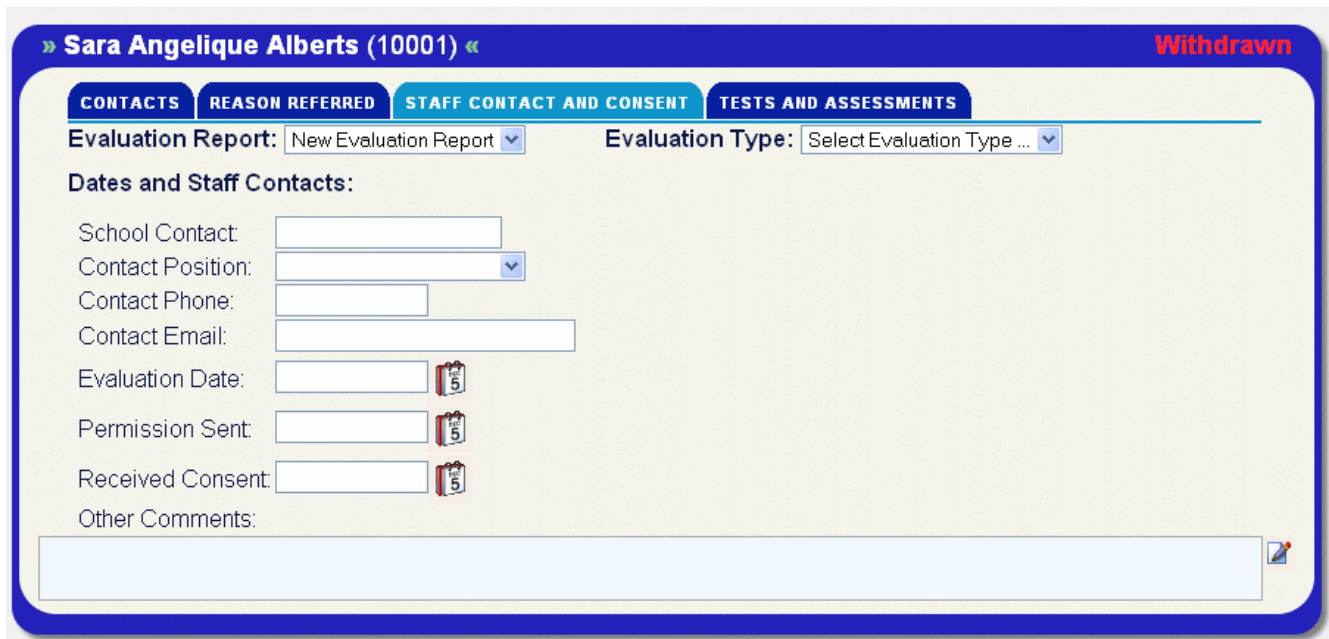

Contact Log: This provides a space to document any data regarding attempts to contact the parent/guarding. Clicking anywhere in the field will open the Rich Text Editor. Text you enter here will NOT display on the permission to evaluate letter. It is intended for internal note keeping.

Reason Referred tab:

Select the appropriate referral type from the list provided. The options are defined in the Reasons Referred dictionary.

Staff Contacts and Consent tab

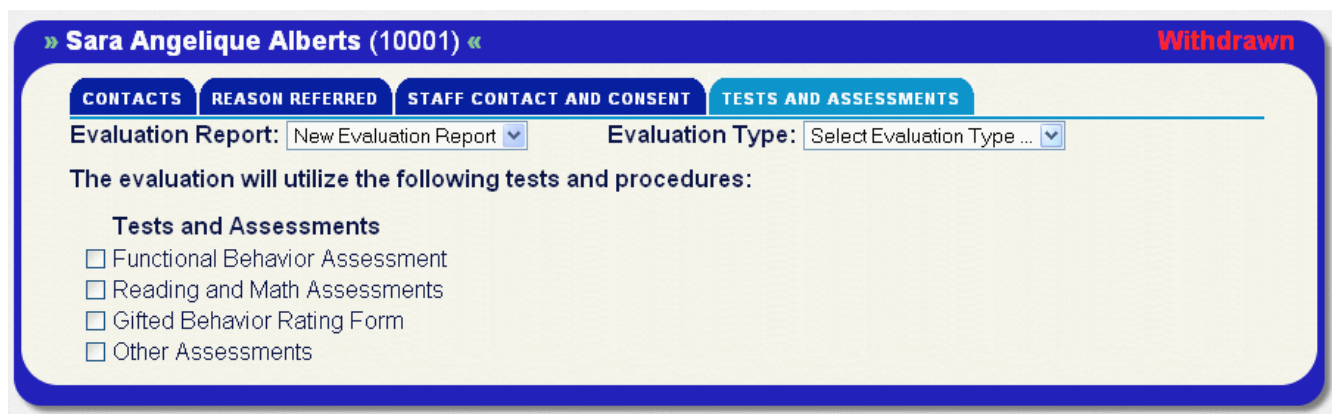

The screenshot shows the 'Staff Contact and Consent' tab for a student named Sara Angelique Alberts (10001). The interface includes a header with the student's name and a 'Withdrawn' status. Below the header are four tabs: 'CONTACTS', 'REASON REFERRED', 'STAFF CONTACT AND CONSENT' (which is active), and 'TESTS AND ASSESSMENTS'. The 'STAFF CONTACT AND CONSENT' tab contains the following fields:

- Evaluation Report:** A dropdown menu currently set to 'New Evaluation Report'.
- Evaluation Type:** A dropdown menu currently set to 'Select Evaluation Type ...'.
- Dates and Staff Contacts:** A section with several input fields:
 - School Contact:** A text input field.
 - Contact Position:** A dropdown menu.
 - Contact Phone:** A text input field.
 - Contact Email:** A text input field.
 - Evaluation Date:** A date picker with a calendar icon.
 - Permission Sent:** A date picker with a calendar icon.
 - Received Consent:** A date picker with a calendar icon.
 - Other Comments:** A large text area for additional notes.

Complete the School Contact, Position, Phone Number and Email fields. The School Contact field is a lookup field. The Position field can be selected from the drop down list. (The system does not automatically fill in the position based on the name since one individual could be associated with more than one position)

Complete the Date fields as appropriate. **You will need to return to this screen when you receive consent to enter the date the consent was received.** This date becomes the basis for compliance.

Test and Assessments tab:

The screenshot shows the 'Tests and Assessments' tab for the same student, Sara Angelique Alberts (10001). The interface is similar to the previous tab, with the 'TESTS AND ASSESSMENTS' tab now active. It includes the same header and tabs. The 'TESTS AND ASSESSMENTS' tab contains the following elements:

- Evaluation Report:** A dropdown menu currently set to 'New Evaluation Report'.
- Evaluation Type:** A dropdown menu currently set to 'Select Evaluation Type ...'.
- The evaluation will utilize the following tests and procedures:** A section with a heading 'Tests and Assessments' and a list of checkboxes:
 - ☐ Functional Behavior Assessment
 - ☐ Reading and Math Assessments
 - ☐ Gifted Behavior Rating Form
 - ☐ Other Assessments

Check any tests and assessments which will be given during the evaluation. The options listed in the Test Types dictionary

Gifted Individualized Educational Program (GIEP)

Select **IEP>Gifted IEP > Gifted Individualized Educational Program (GIEP)** from the menu. The following screen will display:

General tab

The screenshot shows the 'GIEP Review' interface for 'K12 High School - 2009-2010'. The user is 'smithp' and the year is '2009-2010'. The main menu includes 'Main Menu', 'Evaluations', 'IEP', 'Additional Documents', 'Reports', and 'Admin'. A 'Find Student' search bar is present. The student profile for 'Genevieve Holohan (328)' is shown, with 'GIEP: 2' and 'PA2' selected. The 'Enrolled' status is indicated. The 'GENERAL' tab is active, displaying 'Student Demographics' and 'GIEP Information' sections. The 'Student Demographics' section has a 'Show Student Demographics' toggle button. The 'GIEP Information' section includes fields for 'Student Grade Level' (set to 'Kinder Full'), 'GIEP Meeting Date', 'GIEP Start Date', 'GIEP End Date', 'Staff SD Representative', and 'Other Information'. The 'Document Status' is set to 'Working Copy' and the 'Print Status' is set to 'Draft Version'.

The button under Student Demographics is a toggle to either show or hide student demographic information from the SIS.

Student Grade Level: **Select the grade level the student is in at the start of this GIEP.** Use the drop down arrow to display the list of grades.

Fill in the Dates as appropriate. Complete the Staff SD (School District) Representative field. This field is a lookup field.

Recording the status of the document.

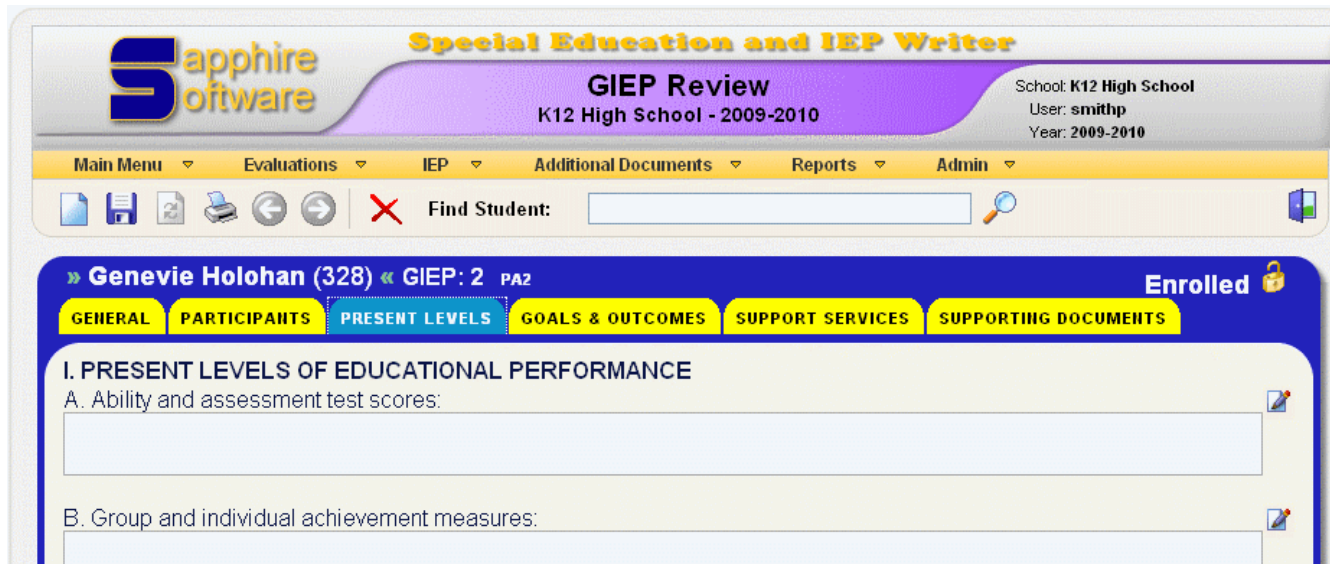

The **Document Status** field has two possible values *Draft* or *Finalized*. When the GIEP is complete with approval from all parties, change the status to Finalized. This flags the GIEP as read only and prevents changes. There are separate security rights to allow users to change the status. Be caution with granting the right to change the status.

Participants Tab

(screen not shown here)

This screen provides fields to enter the names of individuals who will participate in the GIEP Review. It is similar to other participants screens.

Present Levels tab

The screenshot shows the 'Present Levels' tab within the 'GIEP Review' software. The interface includes a top header with the 'Sapphire Software' logo and the title 'Special Education and IEP Writer'. Below this, a purple banner displays 'GIEP Review' and 'K12 High School - 2009-2010'. A sidebar on the right shows 'School: K12 High School', 'User: smithp', and 'Year: 2009-2010'. A yellow navigation bar contains links for 'Main Menu', 'Evaluations', 'IEP', 'Additional Documents', 'Reports', and 'Admin'. Below the navigation bar is a 'Find Student' search field. The main content area is titled '» Genevie Holohan (328) « GIEP: 2 PA2' and includes an 'Enrolled' status icon. A series of yellow tabs are visible: 'GENERAL', 'PARTICIPANTS', 'PRESENT LEVELS' (which is selected), 'GOALS & OUTCOMES', 'SUPPORT SERVICES', and 'SUPPORTING DOCUMENTS'. The 'PRESENT LEVELS' tab contains two sections: 'I. PRESENT LEVELS OF EDUCATIONAL PERFORMANCE' and 'A. Ability and assessment test scores:', followed by a large text input field. Below this is section 'B. Group and individual achievement measures:' with another text input field.

This tab provides Rich Text Editor fields to enter the details for the IEP.

Refer to the section **Attaching Ancillary Documents to Special Ed documents** for details on using this tab

Attaching Ancillary Documents to Special Ed documents

Frequently there are ancillary supporting documents that should be included as part of special education documents. The IEP Writer provides a means of seamlessly attaching such documents so that the final version contains all the information as one cohesive package. Users can specify which ancillary documents should be included by selecting them from the district library. *The district library is managed through screens accessed from Admin>Options>District Option(refer to the section Setting District and User Options).* Users can add other (i.e. documents not in the district library) documents to the special education document as needed. Attached ancillary documents become part of the special education document to which they are attached. Any ancillary documents can be opened for viewing. Users can specify which of the printable attached documents will be printed when the special education document is printed. They can also specify the order in which these documents should print.

On the screens for Evaluations, IEPs and GIEPs there is a tab called **Supporting Documents** as shown below on an IEP Review document:

Clicking this tab will display a screen listing any ancillary documents currently attached to the special education document. The remainder of this section explains how to use the Supporting Documents screen.

(Continued on next page for continuity)

This screen lists the ancillary documents that are currently attached to the SE document (***the term SE document will be used to designate any special education document throughout the remainder of this section***). Additional documents can be attached to the SE document from either the district library or another source. This screen also lets you specify whether or not an ancillary document should be printed along with the SE document. The edit icon provides read only access to any attached ancillary document. Documents can be removed from the current SE document as well.

The Supporting Documents screen is partitioned into two sections. The top section titled Printable Documents lists those documents that **can be printed as part of the SE document** when it is printed. The bottom section lists other documents that **cannot be directly printed as a part of the SE document** but which are always attached to the special education document and available for review as supporting documents.

Adding an Ancillary Document.

Supporting documents can be added from either the district library or any other source. *The documents in the district library are defined through tools provided in Admin>Options>District Options. Refer to the section Setting District and User Options for specifics.*

NOTE: All attached documents can be opened for review. Clicking on the document name will open it in **read only mode**. To make changes to the document, a copy must be created and saved. Changes to the copy can then be made using appropriate software.

Districts that wish to maintain a collection of documents that must be edited by users of IEP Writer users should place these documents in the Other Documents section. Users can access the document by clicking the document name. This will open the document in read only format. To edit the document, save a copy. Then use the software that first created the document to make changes in the copy. Save the copy and attach it to the special education document. **Changes to a document should be made BEFORE it is attached to a special education document.** Once a document is attached, it will be accessible as a READ ONLY document

The intent is to allow a district to store a consistent version of a given document that can be used as a “template” for all users. Users then create and edit a copy of the document, save the copy, and attach the revised document to the SE document.

It is essential for user to remember that in order for a document to be automatically printed when the special education document is printed, it **MUST** be a PDF. Users will need access to software that creates PDF documents from source documents.

Adding documents from the District Library

On the Supporting Documents screen, click Add Document from District Library. The following screen will open:

This screen will allow you to copy Supporting Documents from your District library to this document. Please check each document you wish to copy.

The screen is partitioned into two sections: **Printable Documents** and **Other Documents**. Printable documents are those which can be directly printed by the IEP Writer when the SE document is printed. **Printable documents MUST be stored as a PDF**. Other documents can be attached to a SE document. They can not be printed as part of the SE document output. Users can access such documents through the IEP writer for read only review. These documents can be printed independently by the native application. Check the document(s) to be attached to the SE doc and click Copy Now.

NOTE: Clicking on the document name will open it in read only mode. To make changes to the document a copy must be created (*Save As*) and edited using the appropriate software. After the copy is saved, it can be attached.

Adding Documents from other sources

Documents from sources other than those in the District Library can be added to the SE document by clicking on Upload New Document. This will open the window shown below:

The screenshot shows a web-based form for adding documents. It features a blue header bar. Below the header, there is a 'Section Title:' label followed by a white text input field. A horizontal line separates this from the 'New File:' label, which is followed by another white text input field and a 'Browse...' button. At the bottom right of the form are two buttons: 'Save Changes' and 'Cancel'.

The **Section Title** is the name that is displayed on the supporting document list.

Designate the source file in the **New File** field. The Browse button allows you to search your hard drive folders to designate the desired file. Click Save Changes to add the designated file to the list of ancillary documents associated with the current SE document.

The Supporting Documents screen is partitioned into two sections. The top section lists documents which **can be printed** when the SE document is printed. The check box to the left of the document indicates whether or not the document **will** be printed by the IEP Writer when the SE document is printed. (*See note below*) The SE document itself will always be included in the list and will be checked by default. Checked documents will print in the order in which they appear on the screen. The print order can be changed by dragging the document to order them as desired by clicking on the green up/down arrows.

The bottom portion of the screen lists documents that are **not** available to be directly printed by the IEP Writer but which are included as part of the SE document. Non PDF documents are NOT printed by the IEP writer but can be accessed for review and independent printing by clicking on the document name.

IMPORTANT NOTE: In order for a document to be automatically printed by the IEP Writer, it **MUST BE A PDF**. Documents that are not in PDF format can not be included in the top section of the supplemental documents screen. Users will need to convert documents to PDFs using district supplied PDF creation software prior to uploading them if they want them to be directly printable.

Reviewing Ancillary Documents

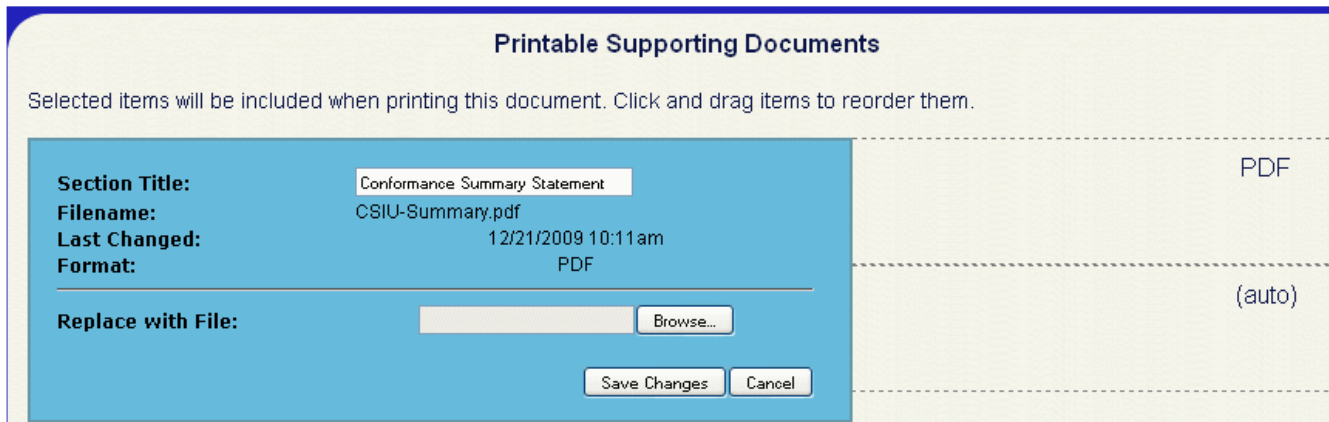

Clicking on the document file name (in blue) in either the top or bottom portion of the screen will open the document in read only mode. The document will be opened using the software used to create it in **read only mode**. In order to make changes to the document, a copy must be saved.

Removing Ancillary Documents (from the SE doc)

To remove an ancillary document from the SE document, click the red X next to the document name. This deletes the document from the SE document (but NOT from the district library or your hard drive).

Changing the Title or Source Document.

To change the section title or the source file of an ancillary document, click on the **Edit** icon next to the document name. This will open the following window:

The dialog box is titled "Printable Supporting Documents". It contains a message: "Selected items will be included when printing this document. Click and drag items to reorder them." Below this is a table with two columns. The left column has a blue background and contains fields for "Section Title:", "Filename:", "Last Changed:", and "Format:". The right column has a light beige background and contains the document type "PDF" and "(auto)". At the bottom of the blue section is a "Replace with File:" field with a "Browse..." button. At the bottom of the entire dialog are "Save Changes" and "Cancel" buttons.

Enrolling a student in Special Education (Student Date of Entry)

After all the required documents have been completed and signed, it is necessary to formally enroll the student in special education. The Special Education – IEP writer will recognize a student as active in Special Education only after recording the date on which he entered special education. To enter this date, you need to go to the **Student Date of Entry** screen by selecting **Main Menu>Student Date of Entry**)

This tab provides fields to record whether or not the student is Gifted, has a GIEP or an IEP. This data is NOT what is displayed in the Enrollment 2 screen in the SIS. The SIS reads data from what is entered in the Special Services PA screens. **Admin>PIMS Area>Special Services (PA)**. See the section titled **Recording Data for PIMS Reports** for more information.

Recording Data for PIMS Reports

All the fields required for special education PIMS reports are provided in the Special Services PA section. To access these fields select **Admin>PIMS Area>Special Services (PA)**.

There are three tabs in the Special Services PA area. Each tab provides fields to record data required for PIMS reporting. Refer to your PIMS manual for information about what the state wants in each field. The field names are the same as those used in the PIMS report.

It is important to recognize that the data in the Special Services PA fields can be entered either in the IEP Writer OR from the Student Information System. In the screen shot above, notice in the yellow Special Services Information line it indicates that the data was entered from the SIS. This is displayed the same way in the SIS. The special education office (persons using the IEP Writer) can enter or edit the data on this screen. Once the special education office makes any type of entry here, persons using the SIS will NOT be able to make any changes to the data for the given student. The idea is “the Special Education Office always wins”. After the data has been entered through the IEP Writer, the SIS will notify those users that the data was displayed on their screens was entered from IEP Writer.

Working with Case Managers and Service Providers

Students active in special education must be assigned to a case manager who is responsible for the paper work. Additionally, service providers who work with the student will need to be assigned. These assignments are handled by selecting **Admin>Staff Area>Case Manager: Students**.

To enter more than one student at a time, type a comma between the student numbers.

There is currently one student who does not have a Case Manager assigned as their Primary Service Provider.

1 Ellicker, Thomas (365)

In the case manager field, select the individual with whom you wish to work. The system will display a list of the students assigned to this individual. The provider will be listed as either Primary or Related. If there are special education students who do not have a primary provider, they will be displayed in the list at the bottom.

There are two ways to assign a student to the individual specified.

- 1) Click on the student in the list.
- 2) Enter one or more student id's on the titled "Enter Student ID's to Add"

To make the individual a Primary Provider, check the box on the second line.

NOTE: Security rights determine what functions the user will have access to. Teachers who do not have authority to add or delete students from the list will not be able to do so.

NOTE: There can only be one primary provider for a student. If you change the primary provider for a student who already had someone designated as primary, the original primary provider will become a related provider and the newly named person will be primary.

Evaluation Reevaluation and IEP tabs

The screenshot shows the 'District Options' window with several tabs: GENERAL OPTIONS, EVALUATIONS/REEVALUATIONS (selected), IEP, IIOREP, PROGRESS REPORTS, and SUPPORTING DOCUMENTS.

Evaluations/Reevaluations

ER Days to Complete	<input type="text" value="60"/>
ER Days to Warning	<input type="text" value="45"/>
ER Days to Critical	<input type="text" value="55"/>
ER Use calendar days?	<input checked="" type="button" value="Yes"/>
ER Print Blank Text Areas	<input type="button" value="No"/>

Contact Defaults

Below this header are tabs for DISTRICT, BLD 01, BLD 02, BLD 03, and BLD ALT. The 'DISTRICT' tab is selected.

District Contact Defaults

Contact:	<input type="text" value="Howe, Jamie"/>
Role:	<input type="text" value="School Psychologist"/>
Contact Phone:	<input type="text" value="570-223-0765"/>
Contact Email:	<input type="text" value="jhoweD@k12.com"/>

There are two sections on this tab. The values in the top section determine how the system determines the status of an on going evaluation. Once permission has been obtained to evaluate a student, federal law exists governing the time the district has to complete the evaluation / reevaluation report. The **Days to Warning** value specifies the **number of days that have passed** since permission was received and at that point the system should display a warning that the evaluation deadline is approaching. The **Days to Critical** is similar except the system will flag the evaluation as being critical. As before, the value indicates the number of days that have elapsed since permission to evaluate was received. The Use Calendar Days field is a toggle. Selecting No will cause the system to use school days in the counts. The last field specifies whether or not the system should print fields that were left blank when the evaluation was completed.

Specifying Contact Defaults

The **Contact Defaults** tab, (which is available on the ER/RR, IEP and NOREP tabs of District Options tab), allows you to define what values will be automatically filled in on the contacts fields of the corresponding documents. There are actually three levels of defaults, a district level and building level and a personal level. (The personal level defaults are accessed from Admin>Options>Personal Options). The system uses a hierarchy to determine what values to populate the contacts fields with by default. First the system will check for personal level defaults. If any exist, they will be used. If no personal level defaults exist, the system will check for building defaults and use those if they exist. Finally, the system will check for district defaults. If no defaults exist, the corresponding contacts fields will be left blank for the user to complete.

The defaults and corresponding fields where they will be used are:

Defaults set from	Used in
Evaluations Reevaluations tab	Permission to Evaluate / Staff Contacts and Consent Permission to Evaluate Gifted / Staff Contacts and Consent
IEP tab	School Age IEP / Meeting Invitation / Meeting Specifics Gifted IEP / Invitation to GIEP Team Meeting / Meeting Specifics
NOREP tab	School Age IEP / NOREP/ Contacts Gifted IEP / NORA / Contacts

Progress Reports tab

The screenshot shows the 'District Options' window with the 'PROGRESS REPORTS' tab selected. Below the tab bar, the 'Progress Reports' section contains a label 'Show General Progress Reports on Menu:' followed by a dropdown menu currently set to 'Yes'.

This tab determines whether or not the menu item “Progress Reports (General)” should be displayed on the School Age IPE menu.

The Supporting Documents tab allows the district to add or delete documents to the district library. Such documents will be available to users of the IEP Writer to be included in designated special education document. The tabs **Evaluation GIEP and IEP** designate the specific SE document to which documents in the list apply.

There are two distinct document types which can be included in the district library. Printable Supporting documents must be stored as a PDF. Such documents can be printed as an integral part of the SE document when it is printed by the IEP Writer. They are also available for read only review.

Other Supporting Documents can be attached to any SE document. They will be available for read only review and can be printed independently by the application which created them. They can not be automatically printed by the IEP Writer.

The tabs **Evaluation GIEP and IEP** designate the specific SE document to which documents in the list apply. To upload a supporting document to the district library click on the desired document tab (*Evaluation GIEP or IEP*). Then click **Upload New Document**. The following window will open:

The screenshot shows a light blue web form. At the top, there is a label "Section Title:" followed by a white text input field. Below this, there is a label "New File:" followed by a white text input field and a "Browse..." button. At the bottom right of the form, there are two buttons: "Save Changes" and "Cancel".

The Section Title is the name that will displayed on Supporting Documents screens. The file to upload is designated in the New File field. Click the Browse button to search for the file. To upload the file to the district library click Save Changes

Document Locking

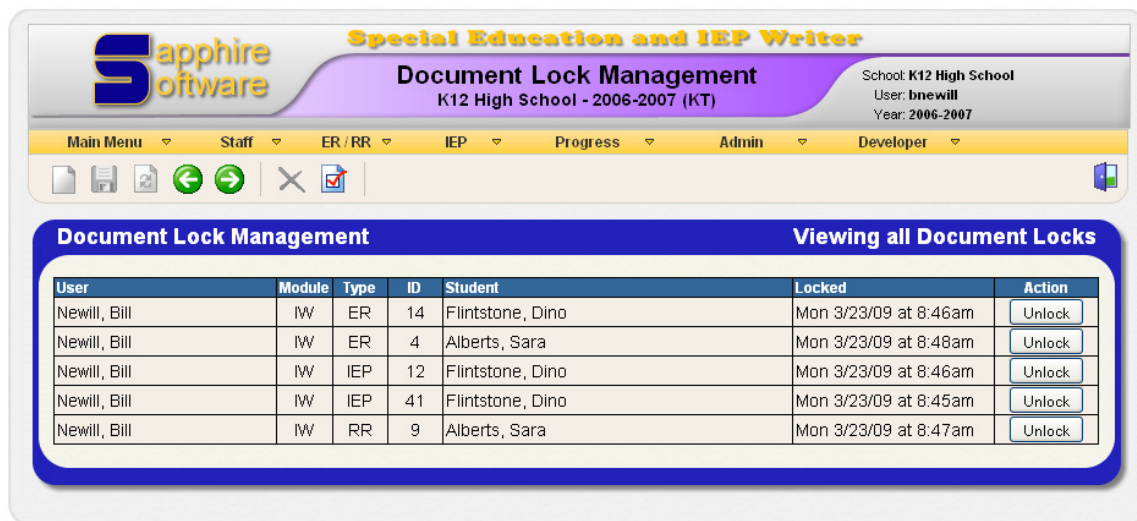

Document locking is a mechanism that has been implemented to prevent two users from working on the same document at the same time. The reason two users should not be able to simultaneously work on a document is because the rule in all database systems is *“the last person to save wins”*. **IF** you could open a document while another user was using it, the contents would be the same as the contents were when he opened it. If you made changes and saved, then the other user made DIFFERENT changes and saved, his changes would replace yours.

The system “locks” a document as soon as a user opens it so another user cannot access it while it is in use. If you attempt to open a “locked” document, the system will display the following telling you who is using the document.

The Document Locks Utility

Admin>Utilities>Document Locks Utility

The Document Lock Management utility allows a user to view any existing “locked” documents. If the user has sufficient Security Rights, the user will be able to see all “locked” documents for all users.

If the user does not have sufficient Security Rights, the user will only see their own “locked” documents.

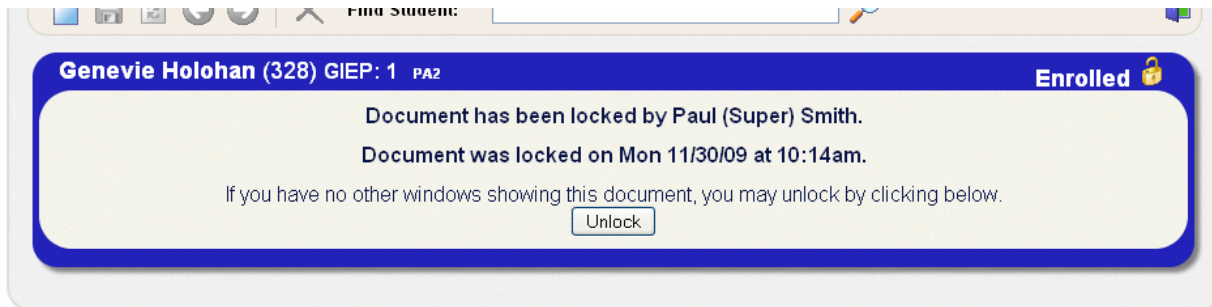

Locked documents can be unlocked by the person who originally caused the document lock and by a user with sufficient security rights. **Unlocking a document should be done with extreme caution.** The purpose of the document locking system is to prevent multiple users from modifying the same document simultaneously. Typically, the only reason a lock belonging to someone other than the current user should be removed is when it is KNOWN that the person who established the lock is not actually working on the document. This usually happens because that person either closed the browser while the document was still active in a screen, or closed the tab or window that was displaying the document.

Document locks are removed when a user navigates to another document or screen using the menus and when the user logs off the system or their session times out.

***Note:** Locked in this context is different from an IEP Status being set to Locked. In that context “Locked” means the document is read only and can not be modified without proper authority*

Frequently Asked Questions about Locked documents

Question: Sometimes when I try to open a document I get a message like this:

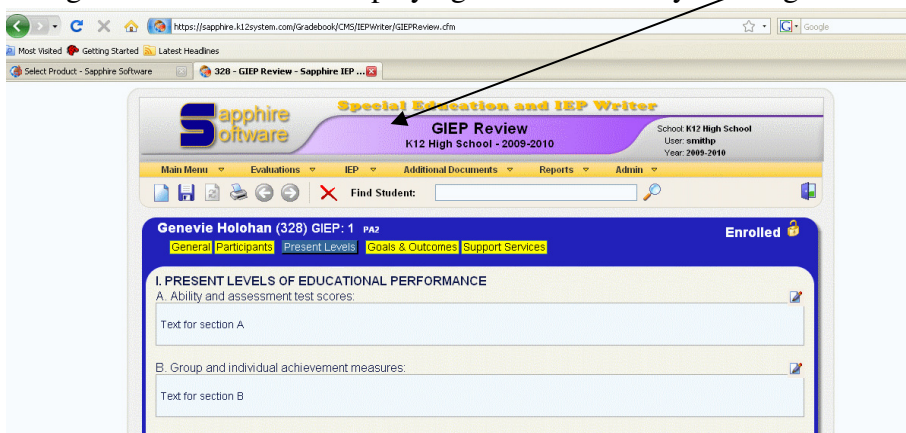

What does this mean?

Answer: Document locking is a mechanism that has been implemented to prevent two users from working on a given document at the same time. In the above example, the system is telling you that the document you are attempting to access is already in use by Paul. You will not be able to work on it until it is no longer in use by Paul. The reason two users should not be able to simultaneously work on a document is because the rule in all database systems is *“the last person to save wins”*. **IF** you could open the document while Paul was using it, the contents would be the same as the contents were when Paul opened it. If you made changes and saved, then Paul made DIFFERENT changes and saved, his changes would replace yours. The system “locks” a document as soon as a user opens it.

Question: Sometimes the system tells me that the document is locked by ME, but I’m not working on it. Why?

Answer: There are a few ways this could occur. Most commonly it is because at some point in the past you were working on the document and navigated away from it in such a way that the system does not recognize that you no longer are working on the document. Usually it is due to one of the following:

- Closing your browser while the document is open.
- Closing the window that is displaying the document by clicking the **X** on the tab.

If either of these actions occur, the system still “thinks” you are working on the document after you close the window even if you have saved. Closing the window only affects what is showing on the screen. The servers do not realize you have closed the window. Therefore, the document is still flagged as being locked by you.

Question: What should I do if the system tells me the document is locked by me?

Answer: As long there are no windows or tabs active which display the document you can click the Unlock button shown on the dialog box. If the document is active in another window or tab, go to that tab, and you will be able to work on it there.

Question: How do I prevent documents from being locked when they shouldn't be?

Answer: **Do not** close the tab that is displaying the document or close your browser while the document is still showing on your screen.

- If you are done with the document and want to leave the IEP Writer, be sure you have saved the document, then click the Logout icon. Logging out will tell the system you are no longer working on anything and will remove any document locks.
- If you want to work with a different document, or with a different student, **use the menus** to navigate to the document or student with whom you wish to work. Accessing a different document or a different student will tell the system you are no longer working on the original document and will remove an document locks.

Question: What if I try to open a document and it is locked by someone else but I KNOW that that person is not working on it? Can I unlock it?

Answer: That all depends on the security permissions you have been granted by your district. If you have the rights to unlock documents that have been locked by other users you will be able to do so. If not, you will need to contact someone who does have such permission and have him unlock the document.

Summary: To avoid issues with documents being locked when they should not be, it is important for ALL users to follow proper procedures. The important things to remember are:

- DO NOT close the tab in which a document is being displayed.
- DO NOT close the browser while a document is being displayed.
- ALWAYS use the menus to navigate in the IEP Writer. DO NOT use the browsers Back or Forward buttons
- ALWAYS log out properly when you are finished with the IEP writer. DO NOT simply close your browser.

Using the Rich Text Editor

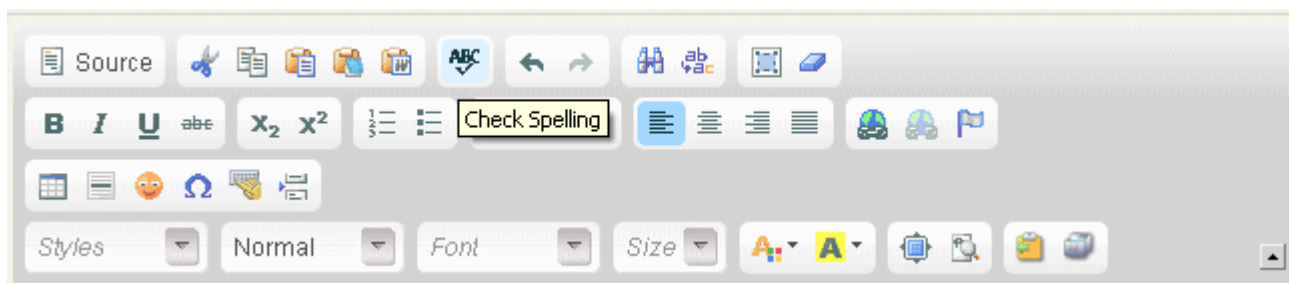

The Rich Text Editor will be launched anytime there is a field where text can be entered as shown below

Clicking anywhere in the **text area** or on the **edit icon** will launch the Rich Text Editor as shown below.

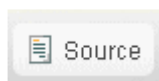

Resizing the edit area.

The default size of the typing area displayed (the number of rows) is defined in **Admin > Options > District Options > General tab**. You can enlarge the editing several ways.

- clicking the **Maximize** icon on the toolbar This will open the editor as a full screen
- clicking on the **show/hide toolbar toggle**. This will either hide or redisplay the toolbar.
- dragging the **sizing handle** down.

Shown above is the RTE toolbar. The icons in the toolbar provide access to functions used in preparing the document. Holding the mouse on any icon will display a tool tip that identifies the function of the icon as shown. The functions of each icon are summarized below:

Clicking the Source icon will display the HTML code that defines how the browser displays the document. Removing or altering any HTML tags will affect the way the document displays and how it is printed. Unless you know HTML, it is unlikely you will need this function.

Copy and Cut functions

The next set of icons are Cut, and Copy,.

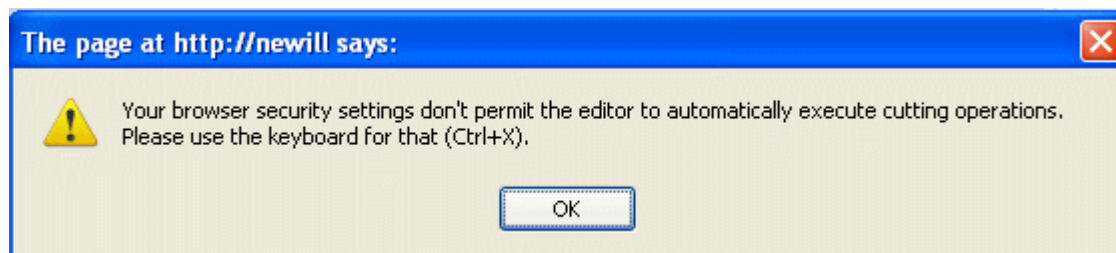

Cut

Copy

Clicking the **Cut** icon will cause selected text to be removed from the document. The selected text will be placed on the clipboard.

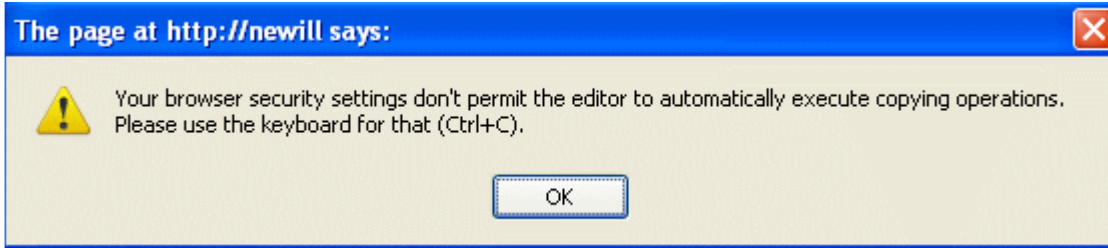

NOTE: *Depending on your browser, when you click on the Cut icon, the browser may display the following message:*

If this message occurs you will need to use Ctrl-X to perform cut operation instead of the Cut icon or right click / cut.

Clicking **Copy** icon will cause selected text to be copied to the clipboard.

NOTE: *Depending on your browser, when you click on the Copy icon, the browser may display the following message:*

If this message occurs you will need to use Ctrl-C to do copy operations instead of the Copy icon or right click / copy.

Pasting text that was entered from within the RTE

Although the RTE allows you to enter and format text, the document it produces is different from the documents produced by other word processing software. The RTE is actually creating an HTML document that can be displayed by a web browser. All HTML documents contain “tags”. Tags are elements embedded in the text that define how the browser should display the text. These tags follow very specifically defined rules. The tags are required and must adhere to the defined rules. When you use the RTE to enter and format text, the editor is inserting the correct HTML tags. (*Other text processing software inserts proprietary tags that define how the text should be formatted*). When you copy (or cut) text created using the RTE, the HTML tags will also be copied. Therefore pasting text that was entered using the RTE is straightforward and can be done using the **Paste** icon.

Paste icon

When you click the Paste icon, the RTE will display the following:

Although the text to be pasted in this case was produced by the RTE, K12 Systems has implemented the Paste function so that Paste operation will always be done as if you were pasting from Word. Since correct HTML tags were inserted by the RTE and no proprietary tags exist, the text will be properly formatted and inserted into the document. To complete the Paste, follow the directions displayed in the dialog box.

Pasting text from Word documents

It is common to want to paste text created by Microsoft Word into a RTE document. Because Word is not designed to create HTML documents, the text will not contain HTML tags. However, the text will contain proprietary tags that are used exclusively by Word. To assure that the pasted text is displayed (and eventually printed) properly, it is necessary to either remove the proprietary tags or to translate the proprietary tags that exist in the Word source into equivalent HTML tags that define the same formatting. This is the purpose of the **Paste from Word** function when the source is a Word document. Paste From Word will **translate the proprietary tags in Word to correct HTML tags**.

Paste from Word.

Clicking this icon will display the following dialog box:

Follow the directions in the dialog box to complete the paste. The RTE will translate proprietary tags that exist in Word to the corresponding HTML tags to preserve the formatting elements. The check boxes on the bottom left of the dialog box should both be checked (the default). This instructs the RTE to NOT translate Word fonts and to remove Word Styles.

Note: *Not translating Word fonts is desirable because translating such font definitions may cause the document being produced to have many different fonts.. You have the option of selecting fonts using the RTE tools after the text has been pasted.*

Note: *The Paste from Word function will correctly translate the proprietary Word tags in most cases. However, K12 cannot guarantee that pasting from other software will result in properly formatted text 100% of time.*

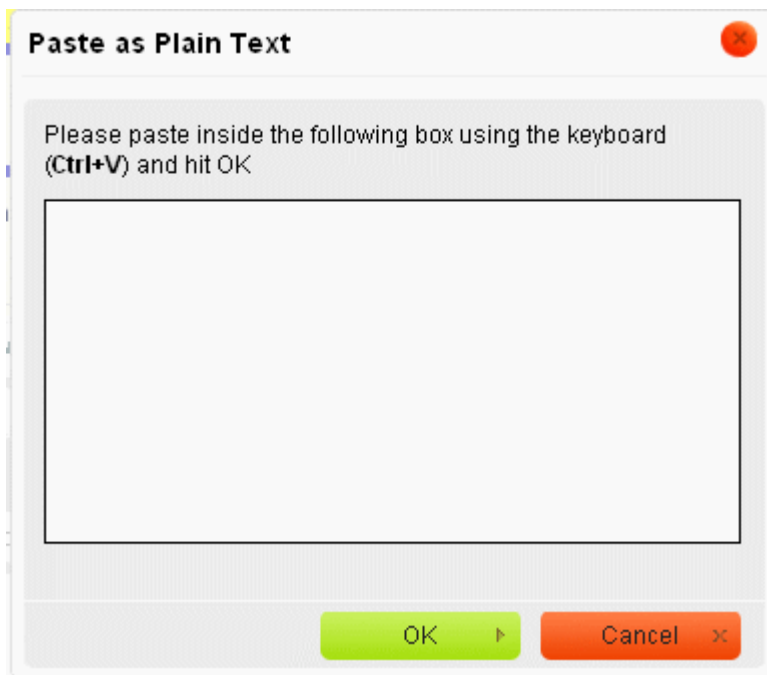

Pasting text from other (non Word) documents.

It is common to want to paste text created by software other than Word into a RTE document. Because these other text processing programs are not designed to create HTML documents, the text will not contain HTML tags. However, the text is likely to contain hidden elements (proprietary tags) that are used by that package. Since the source of non Word documents is not known, it is impossible to translate proprietary tags since they would vary depending upon the text editor used to create the original document. When text from a non Word text processing program is pasted into the RTE, it is necessary to **remove all proprietary tags**. This is the purpose of the **Paste as Text** icon. **The Paste as Text function will remove ALL proprietary tags**. These tags are likely to have defined various formatting. Therefore, the formatting present in the original document will be lost. You can then use the RTE to format the text.

Paste as Text

Clicking this icon will display the following dialog box:

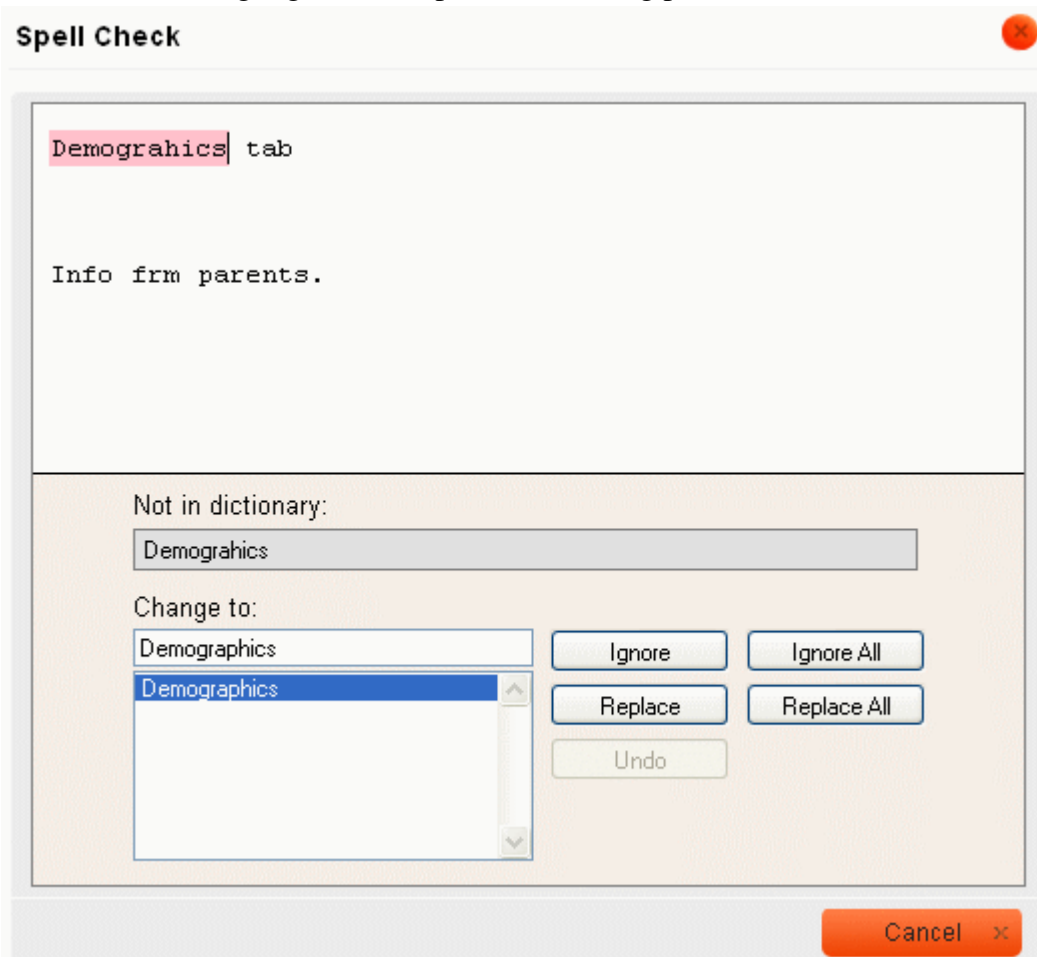

To complete the Paste, follow the directions displayed in the dialog box. All proprietary tags will be removed from the text.

Spell Check icon:

Clicking this icon will perform a spell check of the text. The following dialog box will open. Misspelled words will be highlighted and options for editing provided as shown:

Undo/ Redo changes

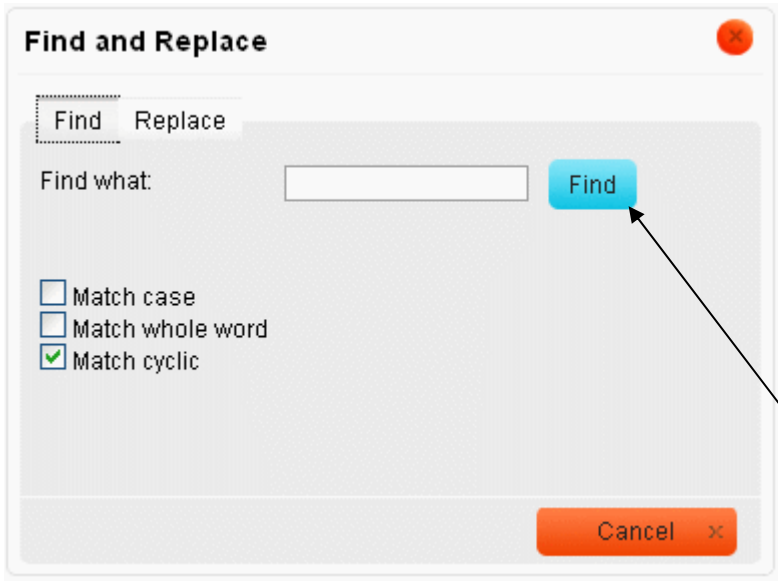

Undo / Redo

These icons allow you to undo or redo recent changes.

Find

Clicking the Find icon will open the window shown below:

This window allows you to specify the text you wish to search for with options to filter how the search should function. If the designated text is found the cursor will move to that position and the text will be highlighted. You can search for the next occurrence by clicking the blue **Find** button (in the window) again.

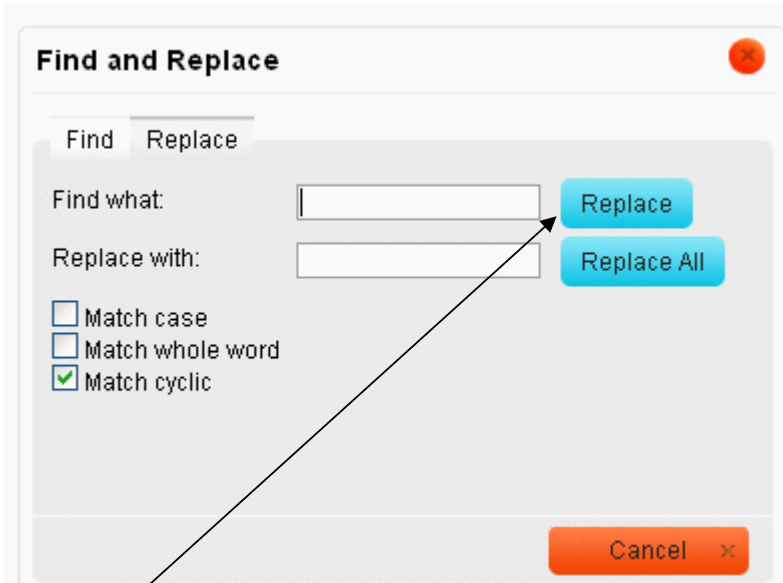

The search filters are:

- Match Case: Checking this box will find text whose case exactly matches the target.
- Match whole word: Checking this box will find any text matching the search target that is contained in a complete word and ignore text embedded in other text. If the box is unchecked the function will find the target anywhere it occurs.
- Match cyclic: Checking this box will start the search at the beginning of the document and will allow you to continue clicking the blue Find button. It will continue to the end of the document and then start over at the top. Leaving the button unchecked will start the search at the cursor. Repeated clicks of the blue Find button will search forward. The search will end at the end of the text.

Note: *There are two tabs on this window They allow you to toggle between the Find function and the Replace function.*

 **Replace**

Clicking the Replace icon will open the window shown below:

This allows you to specify the text to replaced and the replacement text. Repeated clicks on the blue **Replace** button (in the window) will move the cursor to the next occurrence of the target text. To replace the text click the blue Replace button while the text is highlighted. Clicking the blue **Replace All** button will automatically replace all occurrences of the target.

The search filters are:

- Match Case: Checking this box will find text whose case exactly matches the target.
- Match whole word: Checking this box will find any text matching the search target that is contained in a complete word and ignore text embedded in other text. If the box is unchecked the function will find the target anywhere it occurs.
- Match cyclic: Checking this box will start the replace at the beginning of the document and will allow you to continue clicking the blue Replace button. It will continue to the end of the document and then start over at the top. Leaving the button unchecked will start the search at the cursor. Repeated clicks of the blue Replace button will search forward. The search/replace will terminate at the end of the text.

Note: *There are two tabs on this window They allow you to toggle between the Find function and the Replace function.*

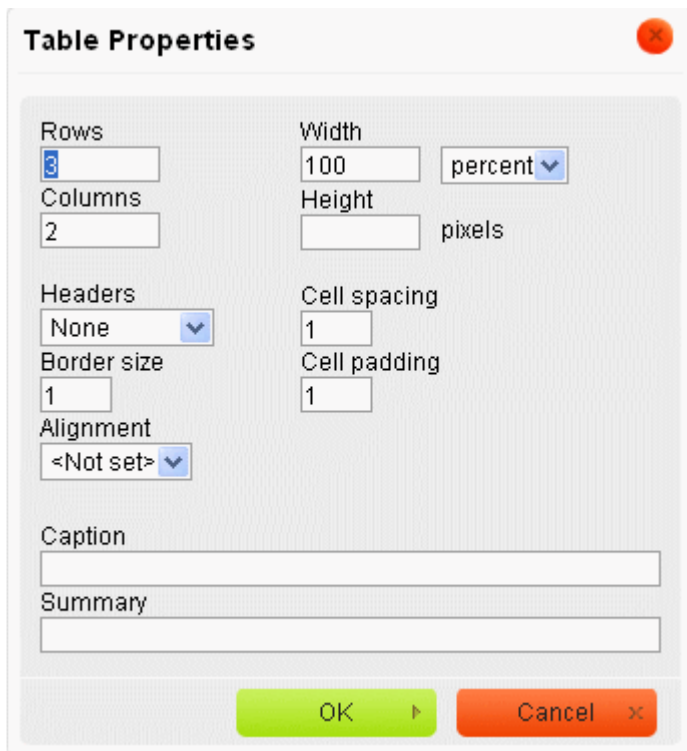

The RTE supports the creation of tables. To insert a table use the Table icon.

Inserting a table.

Table icon

Clicking the Table icon will open the **Table Properties** window:

A screenshot of the 'Table Properties' dialog box. It contains several input fields and dropdown menus. The 'Rows' field is set to 3, 'Columns' to 2, 'Width' to 100 percent, 'Height' is empty with 'pixels' as a unit, 'Headers' is set to 'None', 'Border size' is 1, 'Alignment' is '<Not set>', 'Cell spacing' is 1, and 'Cell padding' is 1. There are also empty text boxes for 'Caption' and 'Summary'. At the bottom are 'OK' and 'Cancel' buttons.

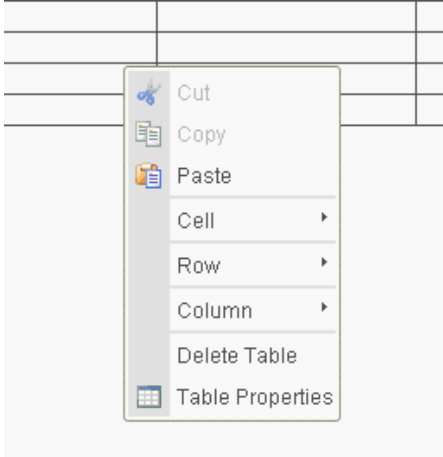

Fields in the Table Properties window are:

- Rows: Specify the number of rows in the table
- Columns: Specify the number of columns in the table
- Width: The value defines what percent of the page width the table will occupy. This will default to 100 Percent. This means the table will span across the full width of the page. Tables copied from Word will be automatically set to a width of 100% as well.
- Headers: The choices are None, First Row, First Column or Both. Specifying a row or column as a header will center the text in that row or column. Text in remaining cells will be left aligned.
- Alignment: The choices are not set, Left, Center or Right. This specifies the placement of the table on the page.
- Caption: Specifies the text to appear directly above the table.
- Border size: Specifies the width of the table border (the outside line)

Clicking OK will insert the table at the cursor position. Text can then be entered in the cells.

Changing table properties.

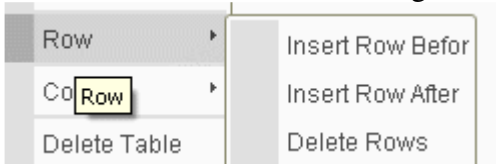

To change the table properties Right click on a table in the RTE. The following window will open:

To change the table properties click on Table Properties. The Table Properties window (see figure above) will open and you can modify any fields.

Adding Rows

Position the cursor in a row. Right click the table. Point at Row. The following window will open:

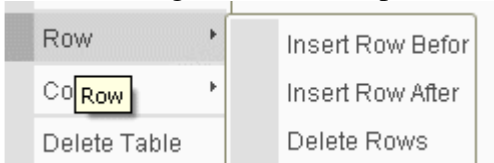

Select one of the Insert Row options.

Adding Columns

K12 Systems recommends you do not add columns to an existing table.

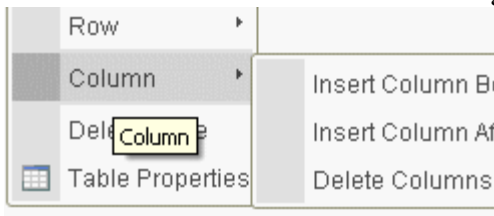

Position the cursor in the desired row or highlight multiple rows. Right click the table. Point at Row. The following window will open:

Select **Delete Rows**. The selected rows will be deleted.

Deleting columns.

Position the cursor in the column you wish to delete or highlight multiple columns. Right click the table. Point at Column. The following windows will open:

Select **Delete Columns**. The specified column(s) will be deleted.

Merging or Splitting cells.

To merge or split a cell, position the cursor in the desired cell(s). Right click the table. Point at Cell. Click Cell Properties. The Cell Properties window will open:

The Columns Span field defines how many columns of the table the cell should occupy. Setting the value to a whole number less than or equal to the number of columns in the table will have the effect of merging the cells into a single cell spanning the specified number of columns.

The Rows Span field defines how many rows of the table the cell should occupy. Setting the value to a whole number less than or equal to the number of rows in the table will have the effect of expanding the cell to span the specified number of rows.

You cannot split cells in a table. However, if you previously merged cells (used the Column Span value), you CAN un-merge them. Set the Column Span value to 1 (or leave it blank)

Deleting a table

To delete a table, you MUST use the Delete table tool. Right click on the table. Click on Delete Table.

Controlling Page Breaks for Printing

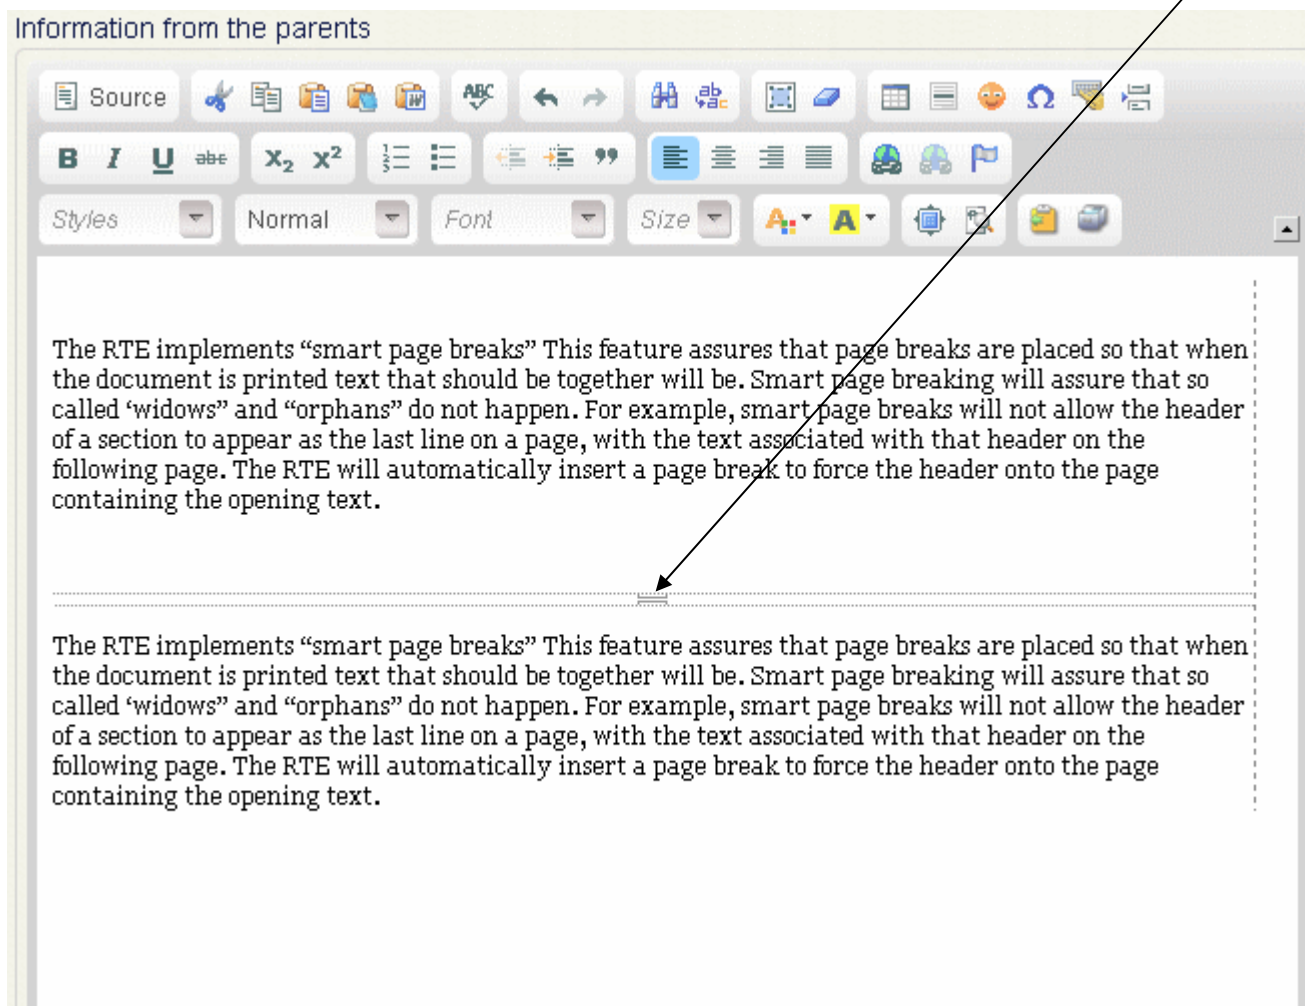

The IEP Writer implements “smart page breaks” This feature assures that page breaks are placed so that when the document is printed text that should be together will be. Smart page breaking will assure that so called ‘widows’ and “orphans” do not happen. For example, smart page breaks will not allow the header of a section to appear as the last line on a page, with the text associated with that header on the following page. The IEP Writer will automatically insert a page break to force the header onto the page containing the opening text.

Users can also control the placement of page breaks by using the **Insert Page Break for Printing** icon.

Insert Page Break for Printing icon

To insert a page break, position the cursor where you want the new page to start. Click on  A page break will be inserted. The editor will display the **page break** as shown below:

Inserting a horizontal line

To insert a line in a RTE document use the **Insert Horizontal Line** icon.

Insert Horizontal Line icon.

Position the cursor where you want the line to appear. Click the  icon. A solid black line will be inserted in the text.

Formatting Text.

The RTE tool bar has numerous icons with which text can be formatted. These icons shown below:

These icons are very similar to those used in Word. Hovering the mouse over any icon will display a tool tip for the icon.

Viewing the structure of the RTE text.

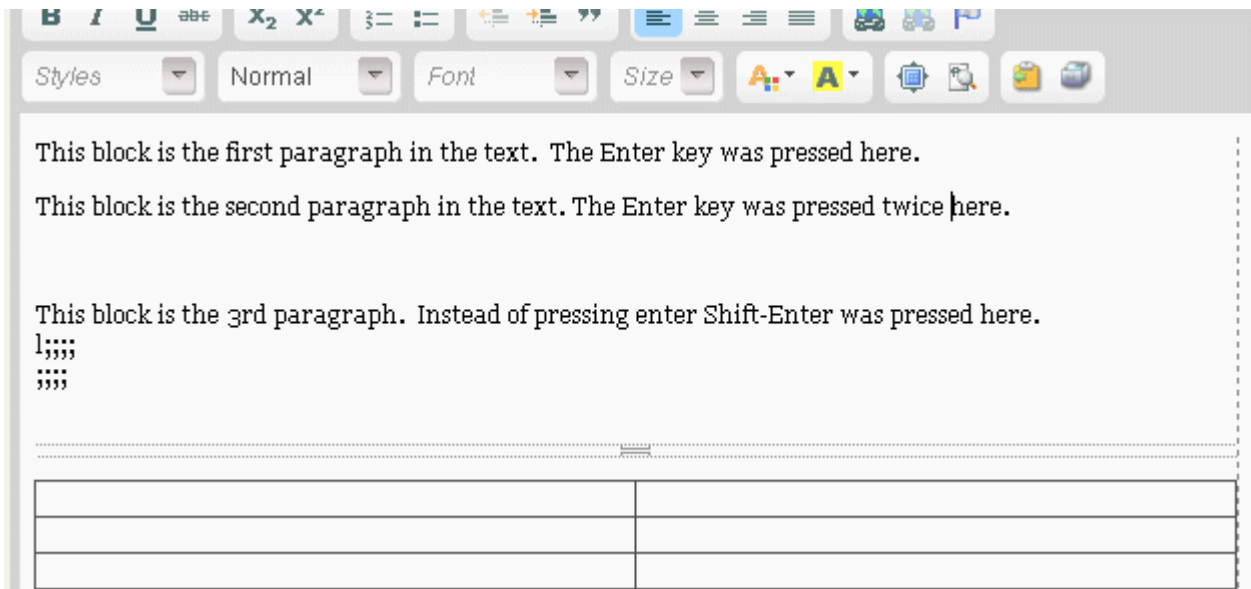

Sometimes it is useful to be able to see how the text in a document is organized. K12 Systems assumes most users will not be familiar with HTML. To allow such non-technical users to see how the text in the editor is organized without looking at the underlying code, the **Show Blocks** function is provided.

Show Blocks icon

Clicking this icon will display the general structure of the document. An example will illustrate this best.

The following is a section of text as it is normally displayed.

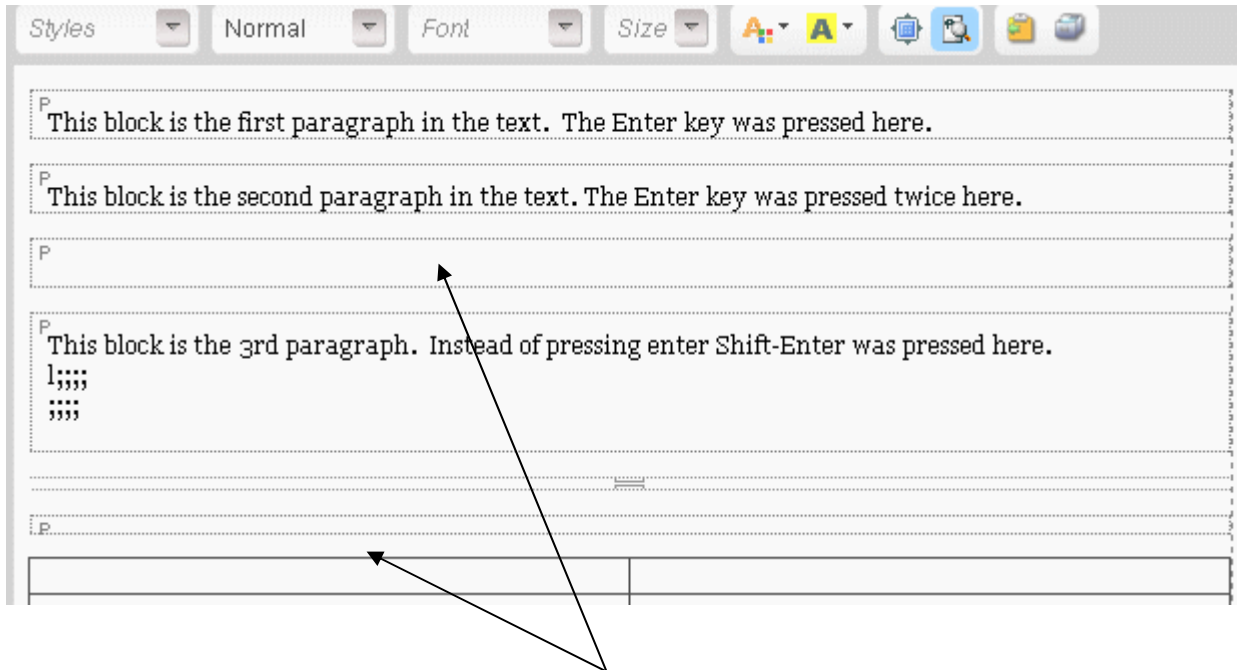

This block is the first paragraph in the text. The Enter key was pressed here.

This block is the second paragraph in the text. The Enter key was pressed twice here.

This block is the 3rd paragraph. Instead of pressing enter Shift-Enter was pressed here.

See next page

Here is the same text displayed after clicking the Show Blocks icon:

The blocks are shown as boxed areas with the P symbol inside. You can think of each block as equivalent to a paragraph. Blocks were created when the Enter key was pressed.

The ability to see where Enter keys were pressed may be useful in editing text.

The Show Blocks feature is similar to the Show/Hide feature in Word or the Reveal Codes feature in Word Perfect.

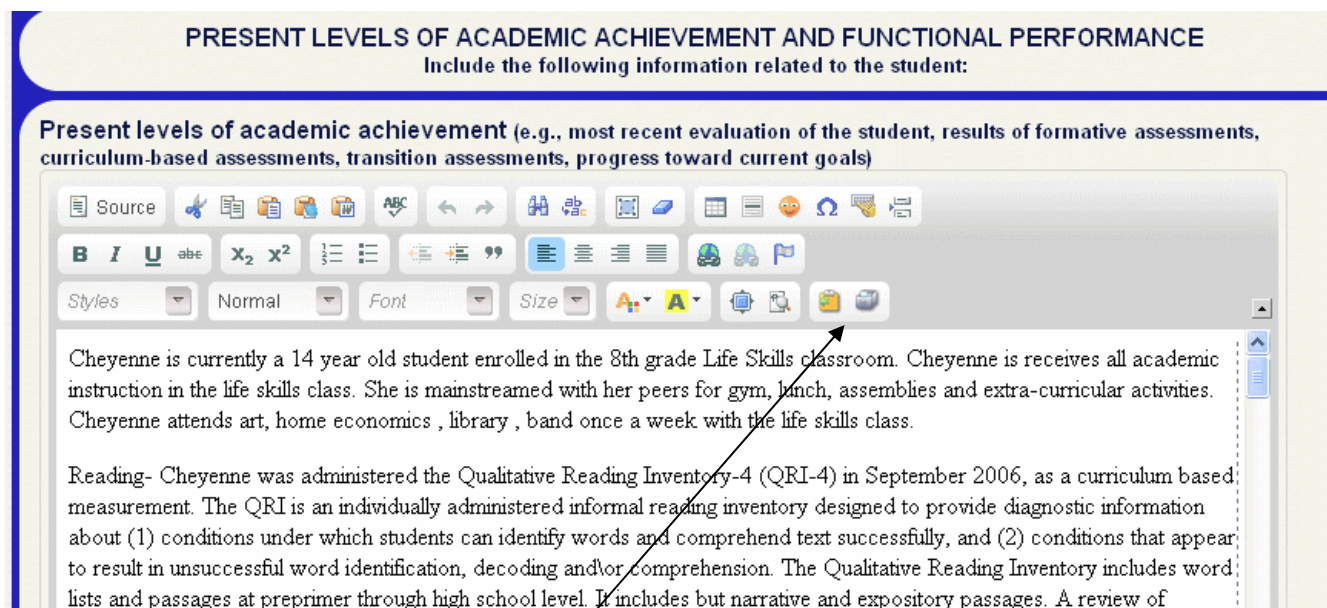

The Show Blocks icon is a toggle. Clicking it will either display or hide the block structure.

The Clip Text feature of the Rich Text Editor is a tool that allows users to define, catalog and insert pre-defined text into specific sections of a document. The IEP-Writer automatically organizes clip text based on the section of the final document in which the text will appear. The system will catalog clip text sections into one of two categories: **District Clip Text** and **Personal Clip Text**. District level clip text is available to all users of the IEP Writer. Personal clip text is available only to the user who saved it. The following section describes how to define and save clip text and how to insert defined clip text in a document.

Saving Text as Clip Text

After you have entered text into the RTE you can save it as clip text. If you have necessary security rights you will be able to save the text as either District Clip Text or Personal Clip Text. All users can save text as personal clip text. The system will catalog the clip text based on the field in the document where it is created and will be available for insertion **ONLY** into that field.

Suppose we are working on an IEP and are filling out the section Present Levels of Academic Achievement and Functional Performance and have typed some text into the editor as shown below.

PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE

This window is another instance of the RTE. You can make any changes to the text in this window.

To add the text to the clip text catalog, specify the following using the buttons and fields on the lower left:

- **New Clip Text Item** will create a new item. Use the buttons to specify the Level and Name of the item.
 - District Level or Personal Level.
 - You will only be able to save at the District level if you have sufficient security rights. All users can save personal clip text.
 - Title.
 - The title will be the name under which the text is saved. It will be listed as a choice when you want to insert clip text.
- **Overwrite Existing Item** will open a list showing all the saved clip text (for this section). To replace an existing item highlight it in the list and click save.

The system will automatically save the text under the section of the document you were working on. The text will be available for insertion **ONLY** within that section.

Making Clip Text “generic”.

It may be expedient to create clip text that it is somewhat generic before you save it. Consider the text from the example above:

A DRA was administered to Sara on 2/20/09 on a Level L.(Mid-2nd grade). She read with 96% accuracy, self-corrected better than 1:2 miscues and read at 54 words per minute, which is at a 1st grade level.. Her fluency score was 9/16 (Instructional) and her Comprehension score was 15/28 (Instructional). The DRA results show that she is instructional in the areas of prediction, retelling (including sequence of events, characters and details), language/vocabulary. She needed 1-2 teacher prompts to predict and retell. She scored at the Intervention level in the Interpretation category showing little understanding of important test implications. She scored as Independent on the Reflection category by identifying a specific event and providing reasons for her opinion. Her probes were 52 WPM and her Foresight was Below Basic.

Some of the text is very specific to the child (Sara). If it was saved as clip text and subsequently inserted in a document, you would need to edit all such child specific items. If you forget, you run the risk of producing a document that has text that would not be accurate for the individual. Therefore, it is wise to use “place holders” in the clip text and then use the replace tool in the RTE to fill in the correct data. Using the text above, you might do something like:

A DRA was administered to <name> on <date>. On a Level L.(Mid-2nd grade). She read with <read %> accuracy.....

The idea is to create “place holders” like <name> and <date>. Now when you insert the clip text into a document, you can use the Replace function in the RTE to replace <name> with the appropriate name, <date> with the appropriate date etc. If the name occurred several places in the text, replacing all occurrences of <name> with the appropriate name will correctly replace every occurrence.

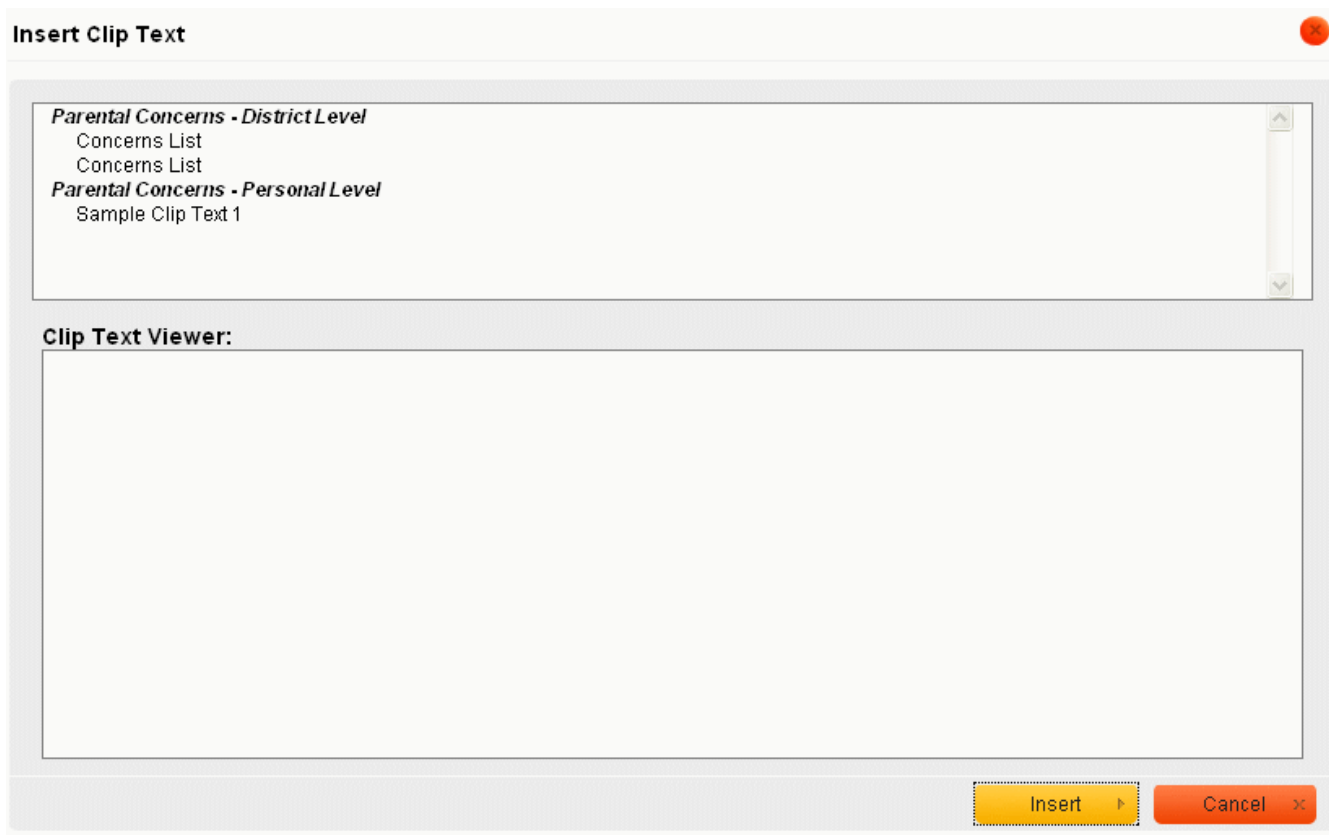

Inserting Clip Text in the document.

Saved clip text can be inserted into the RTE using the **Get Clip Text** icon

Get Clip Text

This will open the window shown below:

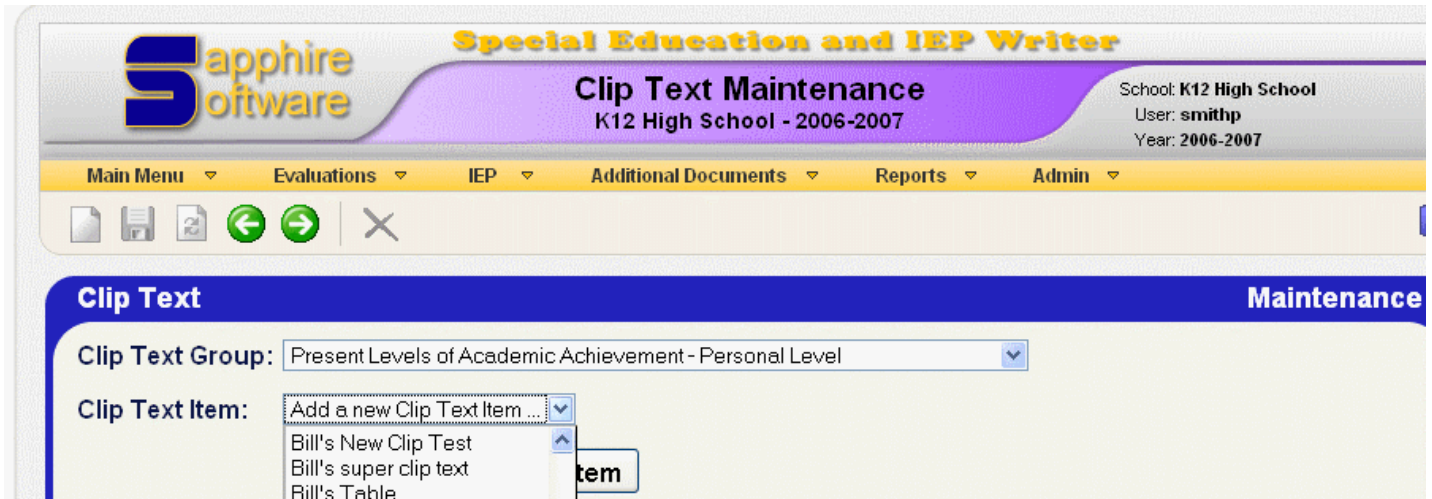

The dialog box is titled "Insert Clip Text" and has a red close button in the top right corner. It contains a list of clip text items and a "Clip Text Viewer" section. The list of items is as follows:

- Parental Concerns - District Level*
 - Concerns List
 - Concerns List
- Parental Concerns - Personal Level*
 - Sample Clip Text 1

Below the list is a section labeled "Clip Text Viewer:" which contains a large empty text area. At the bottom right of the dialog box are two buttons: "Insert" (yellow) and "Cancel" (orange).

Select the clip text item you wish to insert from the available clips. **Notice that ONLY items that apply to the section of the document on which you are working are listed for insertion** (in this case Parental Concerns). You can scroll to see all the clip text items for the active section. The selected text will be displayed in the Clip Text Viewer. Click **Insert** to insert the clip text in the RTE.

Users with sufficient security rights can create and edit clip text items in either the Personal or District level. Managing clip text is done by selecting **Admin>Clip Text and Dictionaries>Clip Text Maintenance**.

Select the **Clip Text Group** from the drop down list.

To add a new clip text item select **Add a new Clip Text Item** and click **Proceed to Clip Text Item**. The clip text editor will open. Enter the text for the clip text. To save the item click the Save icon on the IEP writer menu bar.

To edit an existing clip text item, select the item from the drop down list and click **Proceed to Clip Text Item**. The Clip Text Editor will open displaying the existing text. Edit the text as desired. To save the item click the Save icon on the IEP writer menu bar.

Appendix A Special Education / IEP Writer Security Groups Setup

1.1. Security Groups Setup

For detailed instructions on setting up Security Groups, please refer to the Sapphire Student Information System manual. This appendix refers to specific setup for use with the Special Education / IEP Writer manual.

It is recommended that several Security Groups be setup for use with the Special Education / IEP Writer software. These various Security Groups may vary between school districts based on their size and their specific needs, but in general, there are four categories of Security Groups that should be setup:

1. IW Administration Security Group
2. IW Special Education Office Staff Group
3. IW Special Education Teachers Group
4. IW Special Education Evaluators Group
5. IW Teachers of Gifted Students Group
6. Etc....

Note: Each of these groups are prefaced with “IW” (for ‘I’EP ‘W’riter), this is not mandatory, it is simply a convention to group these Security Groups together for ease of application.

1.2. Security Rights:

The various security rights for the Special Education / IEP Writer software allow school districts to have control over specific use and function within the software.

Most of the Security Rights for this module begin with “IW:” so they can be easily grouped together. Note: There are three Security Rights that are used by both the Student Information System and the Special Education / IEP Writer system and thus are not prefixed with “IW:”. These three Security Rights are: “Special Services – Delete”, “Special Services – Read”, and “Special Services – Write”.

Security Rights Definitions:

IW: 504 Allowed to Finalize

This Security Right allows the user to Finalize a Student Accommodations 504 Document.

IW: 504 Allowed to Un-Finalize

This Security Right allows the user to Un-Finalize a Student Accommodations 504 Document.

IW: Academic Achievement Document

This Security Right allows the user to access the Summary of Academic Achievement and Functional Performance Document.

IW: Communication Plan

This Security Right allows the user to access the Communication Plan Document.

IW: Delete Document – Evaluation

This Security Right allows the user to delete an Evaluation (provided the Evaluation is not locked).

IW: Delete Document – GIEP Document

This Security Right allows the user to delete a GIEP Document (provided the Evaluation is not locked).

IW: Delete Document – Gifted Meeting

This Security Right allows the user to delete a Gifted Meeting Document.

IW: Delete Document – GWR Eval Document

This Security Right allows the user to delete a GWR Evaluation Document.

IW: Delete Document – GWR Reeval Doc

This Security Right allows the user to delete a GWR Reevaluation Document.

IW: Delete Document - IEP Review

This Security Right allows the user to delete an IEP Review document (provided that the IEP Review is not locked).

IW: Delete Document – Meeting Invite

This Security Right allows the user to delete an IEP Meeting Invitation document.

IW: Delete Document – Perm to Evaluate

This Security Right allows the user to delete an Permission to Evaluate document.

IW: Delete Document – Reevaluation

This Security Right allows the user to delete a Reevaluation document (provided that the Reevaluation is not locked).

IW: Dictionaries Read All

This Security Right allows the user to read the Dictionaries used in the Special Education / IEP Writer software.

IW: Dictionaries Write All

This Security Right allows the user to write information into the Dictionaries used in the Special Education / IEP Writer software.

IW: District Options

This Security Right allows the user to view and set District Options for the Special Education / IEP Writer software.

IW: Document Locks Utility

All users can unlock their own documents with the Document Lock Utility.

This security right allows the user the ability to unlock documents for users other than themselves.

IW: Editor: Access to HTML Source

This Security Right allows access to the HTML Source button in the Rich Text Editor used by the Special Education / IEP Writer software. This security right is usually only applied to a supervisor or super user.

IW: Editor: Save District level Clip Text

This Security Right allows the user to save Clip Text templates back to the District Level Clip Text data bank.

IW: Editor: Save Personal level Clip Text

This Security Right allows the user to save Clip Text templates back to the Personal Level Clip Text data bank.

IW: Evaluation Allowed to Finalize

This Security Right allows the user to Finalize an Evaluation (Evaluation Complete).

IW: Evaluation Allowed to Un-Finalize

This Security Right allows the user to Un-Finalize an Evaluation.

IW: Evaluation Print Access

This Security Right allows the user the ability to print an Evaluation.

IW: Evaluation Read Access

This Security Right allows the user the ability to read, but not change, an Evaluation.

IW: Evaluation Write Access

This Security Right allows the user the ability to read and update an Evaluation.

IW: FBA Interview

This Security Right allows the user the ability to access the Functional Behavior Assessment Document.

IW: GIEP Allowed to Finalize

This Security Right allows the user the ability to Finalize a GIEP Document.

IW: GIEP Allowed to Un-Finalize

This Security Right allows the user the ability to Un-Finalize a GIEP Document.

IW: Gifted IEP Read

This Security Right allows the user the ability to read a GIEP Document.

IW: Gifted IEP Write

This Security Right allows the user the ability to write to a GIEP Document.

IW: GWR Evaluation Read

This Security Right allows the user the ability to read a GWR Evaluation Document.

IW: GWR Evaluation Write

This Security Right allows the user the ability to write to a GWR Evaluation Document.

IW: GWR Reevaluation Read

This Security Right allows the user the ability to read a GWR Reevaluation Document.

IW: GWR Reevaluation Write

This Security Right allows the user the ability to write to a GWR Reevaluation Document.

IW: IEP Allowed to Finalize

This Security Right allows the user the ability to Finalize an IEP Review Document.

IW: IEP Allowed to Un-Finalize

This Security Right allows the user the ability to Un-Finalize an IEP Review Document.

IW: IEP Goals Add/Modify

This Security Right allows the user to Add or Modify IEP Review Goals.

IW: IEP Goals Delete

This Security Right allows the user to delete IEP Review Goals from unlocked IEP Review documents.

IW: IEP Objectives Add/Modify

This Security Right allows the user to Add or Modify Goal Objectives in an unlocked IEP Review document.

IW: IEP Objectives Delete

This Security Right allows the user to be able to delete Objectives from an unlocked IEP Review document.

IW: IEP Print Access

This Security Right allows the user to be able to print an IEP Review document.

IW: IEP Read Access

This Security Right allows the user to be able to view an IEP Review document but not make changes.

IW: IEP Write Access

This Security Right allows the user to save changes to IEP Review documents.

IW: IEP Writer General Access

This Security Right allows the user general access to the Special Education / IEP Writer software module. This security right should be assigned in every Security Group that includes Special Education / IEP Writer security rights.

IW: Limit to Case List Override

This Security Right allows the user to view any student's documents even when the "Limit to Case List" option is selected in District Options.

IW: Meeting Invitation Access

This Security Right allows the user to access to the Meeting Invitations.

IW: Meeting Invitation Print

This Security Right allows the user the ability to print Meeting Invitations.

IW: NOREP Maintenance

This Security Right allows the user access to the NOREP/PWN (Notice of Recommended Educational Placement / Prior Written Notice)

IW: Positive Behavior

This Security Right allows the user access to the Positive Behavior Support Plan document.

IW: Report Category Case Manager

This Security Right allows the user access to the Case Manager category of reports.

IW: Report Category Other Reports

This Security Right allows the user access to the Other Reports category of reports.

IW: Report Category Student Reports

This Security Right allows the user access to the Student Reports category of reports.

IW: Special Ed Building Supervisor

This Security Right allows the user higher level rights in various screens.

1. Dashboard – the user can view all special services students.
2. Dashboard – the user can limit their view to any individual Evaluator's or Case Manager's students.
3. Evaluator / Case Manager Setup – the user can view any individual Evaluator or Case Manager
4. Evaluator Students – the user can view any individual Evaluator's assigned Students.
5. Evaluator Students – the user can Add and Delete students from the various Evaluators' lists.
6. Case Manager Students – the user can view any individual Case Manager's assigned Students.
7. Case Manager Students – the user can Add and Delete students from the various Case Managers' lists.

IW: Special Ed District Supervisor

This Security Right allows the user higher level rights in various screens.

1. Dashboard – the user can view all special services students.
2. Dashboard – the user can limit their view to any individual Evaluator's or Case Manager's students.

3. Evaluator / Case Manager Setup – the user can view any individual Evaluator or Case Manager
4. Evaluator Students – the user can view any individual Evaluator’s assigned Students.
5. Evaluator Students – the user can Add and Delete students from the various Evaluators’ lists.
6. Case Manager Students – the user can view any individual Case Manager’s assigned Students.
7. Case Manager Students – the user can Add and Delete students from the various Case Managers’ lists.

IW: Student 504 Plan - delete

This Security Right allows the user to delete the Student Accommodation 504 Plan document.

IW: Student 504 Plan - read

This Security Right allows the user to read the Student Accommodation 504 Plan document.

IW: Student 504 Plan – write

This Security Right allows the user to write to the Student Accommodation 504 Plan document.

IW: Student Eligibility

This Security Right allows the user access to the Student Eligibility Form (504) document.

IW: Student Summary (Stud Date of Entry)

This Security Right allows access and use to the Student Summary screen (formerly Student Date of Entry screen).

Special Services – Delete

This Security Right allows the user to delete data from the Special Services screens (Special Education - PIMS).

Special Services – Read

This Security Right allows the user to read data on the Special Services screens (Special Education - PIMS).

Special Services – Write

This Security Right allows the user to update data on the Special Services screens (Special Education - PIMS).

Appendix B: User Setup

1.4. Assigning Staff IDs

Users who will be using the Sapphire Special Education / IEP Writer module will need to be assigned a Staff ID.

To assign a user a Staff ID, go to Sapphire Student Information Systems → Admin menu → Users option. Select the user you want to work with on the left and select the appropriate Staff ID for the user on the right.

Remember to save the User/Staff ID association.

1.5. Assigning Security Groups

To give users' access to the Sapphire Special Education / IEP Writer module, specific Security Groups must be assigned. To assign Security Groups, go to Sapphire Student Information Systems → Admin menu → Users options. Select the user that you want to work with on the left, click on the Security Groups tab on the top right. Then apply the appropriate group(s) for the selected user.

Note: See the Student Information Systems manual for more detailed information.

Note: You can assign both the Staff ID and the Security Groups to a user at the same time. Remember to save when you are done with each user.

Appendix C: The Special Education Documents

The Special Education – IEP Writer produces printed copies of the following special education documents.

School Age Documents

- Permission to Evaluate (PTE) Consent Form
- Permission to Reevaluate Consent Form
- Permission to Evaluate (PTE) – Evaluation Request Form
- Permission to Reevaluate – Reevaluation Request Form
- Evaluation Report ge
- Reevaluation Report
- Invitation to Participate in the Individualized Educational Program (IEP) Team Meeting
- Individualized Educational Program (IEP)
- Notice of Recommended Educational Placement /Prior Written Notice (NOREP/PWN)

Gifted Documents

- Permission to Evaluate
- Notice of Intent to Reevaluate
- Gifted Written Report – Evaluation
- Gifted Written Report – Reevaluation
- Invitation to Participate in GIEP Team Meeting

Dear **ALWAYS SAYS "PARENT OR GURADIAN"** :

The following concerns have been expressed about your child's educational progress:

REASON REFERRED TAB: CHECK BOXES SELECTED

These difficulties are the reason(s) for referral, and why we would like to conduct an initial evaluation to determine if your child is in need of special education services.

The first step in the special education process is to conduct an individual evaluation of your child, which will consist of a variety of tests and assessments provided at no cost to you. We must have your consent before we can begin.

The evaluation will consist of the following types of tests and assessments:

TESTS AND ASSESSMENTS TAB: CHECK BOXES AND POSITION

A team will conduct the proposed evaluation. As the parent(s), you are a member of the team. Any information you can provide is important to us. Please send your ideas and concerns to us in writing or contact the person listed below if you would prefer to discuss your concerns. If a team meeting is held you will be invited. Information from all team members will be considered during the evaluation process.

The team will determine whether your child needs specially designed instruction because of a disability and is eligible for special education. The results of the evaluation will be included in an *Evaluation Report (ER)*. If your child is determined to be eligible for special education, you will be invited to participate in developing an *Individualized Education Program (IEP)* that will include those programs and services your child needs to succeed in school.

The *Evaluation Report* must be completed and a copy given to you no later than 60 calendar days after we have received your written permission for the evaluation. This 60 calendar day timeline does not include the summer break. The 60 calendar day timeline will begin on the day we receive this signed *PTE - Consent Form* from you giving your consent for evaluation. Giving your consent for evaluation does not mean you give

consent to special education placement or services. If your child is eligible for special education, you will be asked to give written consent for services to begin.

Please read the enclosed *Procedural Safeguards Notice* that explains your rights, and includes state and local advocacy organizations that are available to help you understand your rights and how the special education process works.

Keep a copy of this form for your records.

If you have any questions, or if you need the services of an interpreter, please contact me.

Consent must be requested before we can begin the reevaluation. However, please be aware that after reasonable attempts, if we have not received a response from you, we are permitted by law to proceed with the reevaluation.

A team will conduct the proposed reevaluation. As the parent(s), you are a member of the reevaluation team. Any information you can provide is important to us. Please send your ideas and concerns to us in writing or contact the person listed below if you would prefer to discuss your concerns. If a team meeting is held you will be invited. Information from all team members will be considered during the reevaluation process.

The team will determine whether your child continues to be in need of and eligible for special education and related services. The results of the reevaluation will be outlined in a *Reevaluation Report (RR)*. If your child continues to need special education, recommendations will be given to the Individualized Education Program (IEP) team.

The *Reevaluation Report* is to be completed and a copy given to you no later than 60 calendar days after we have received your written permission to reevaluate your child. This 60 calendar day timeline does not include the summer break. DETERMINATION OF SPECIFIC LEARNING DISABILITY

NOTE: This component must be completed when determining eligibility for Specific Learning Disability. The information must be attached to and/or incorporated into Sections 5 and 6 of the completed *Evaluation Report*.

Items 1 - 5 are completed based on the RTE fields in SLD 1-5 tab
Items 6 - 10 are filled in based on the RTE fields in SLD 6-10 tab

Provide documentation for items 1-10.

1. The student does not achieve adequately for the student's age or does not meet State-approved grade-level standards in one or more of the following areas when provided with learning experiences and scientifically based instruction appropriate for the student's age or State-approved grade level standards and level of English language proficiency: oral expression, listening comprehension, written expression, basic reading skill, reading fluency skills, reading comprehension, mathematics calculation, and mathematics problem-solving.

2. Check below to identify the process(es) used to determine eligibility.

☐ Response to Scientific Research-Based Intervention (RtI). Document the criteria below.

The student does not make sufficient progress to meet age or State-approved grade-level standards in one or more of these areas: oral expression, listening comprehension, written expression, basic reading skill, reading fluency skills, reading comprehension, mathematics calculation, and mathematics problem-solving:

☐ Severe Discrepancy between Intellectual Ability and Achievement. Document the criteria below.

The student exhibits a pattern of strengths and weaknesses in performance, achievement or both relative to age, standards or intellectual development:

3. The instructional strategies used and the student-centered data collected:

4. The educationally relevant medical findings, if any:

5. The effects of the student's environment, culture, or economic background:

6. Data demonstrating that prior to referral or as part of the referral process for a specific learning disability, the student's regular education instruction was delivered by qualified personnel, including the English as a Second Language (ESL) program, if applicable:

7. Data based documentation of repeated assessments of achievement at reasonable intervals, reflecting progress during instruction, which was provided to the parents:

8. An observation in the student's learning environment (including the regular classroom setting) to document the student's academic performance and behavior in the areas of difficulty. Note the relationship of that behavior to the student's academic functioning:

9. Other data, if needed, as determined by the evaluation team:

10. Include a statement for each item below to support the conclusions of the evaluation team that the findings are not primarily a result of

Visual, hearing, motor disability:

Mental retardation:

Emotional disturbance:

Cultural factors:

I. SPECIAL CONSIDERATIONS THE IEP TEAM MUST CONSIDER BEFORE DEVELOPING THE IEP. ANY FACTORS CHECKED AS “YES” MUST BE ADDRESSED IN THE IEP.

This boxes in this section will be checked to correspond to those checked on the IEP Review Special Considerations tab

☐ Yes The IEP must include a description of the instruction in Braille and the use of Braille unless the IEP team determines, after an evaluation of the student’s reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the student’s future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate for the student.

☐ No

Is the student deaf or hard of hearing?

☐ Yes The IEP must include a communication plan to address the following: language and communication needs; opportunities for direct communications with peers and professional personnel in the student’s language and communication mode; academic level; full range of needs, including opportunities for direct instruction in the student’s language and communication mode; and assistive technology devices and services. Indicate in which section of the IEP these considerations are addressed. The Communication Plan must be completed and is available at www.pattan.net

☐ No

Does the student have communication needs?

☐ Yes Student needs must be addressed in the IEP (i.e., present levels, specially designed instruction (SDI), annual goals, etc.)

☐ No

Does the student need assistive technology devices and/or services?

☐ Yes Student needs must be addressed in the IEP (i.e., present levels, specially designed instruction, annual goals, etc.)

☐ No

Does the student have limited English proficiency?

☐ Yes The IEP team must address the student’s language needs and how those needs relate to the IEP.

☐ No

Does the student exhibit behaviors that impede his/her learning or that of others?

☐ Yes The IEP team must develop a Positive Behavior Support Plan that is based on a functional assessment of behavior and that utilizes positive behavior techniques. Results of the functional assessment of behavior may be listed in the Present Levels section of the IEP with a clear measurable plan to address the behavior in the Goals and Specially Designed Instruction sections of the IEP or in the Positive Behavior Support Plan if this is a separate document that is attached to the IEP. A Positive Behavior Support Plan and a Functional Behavioral Assessment form are available at www.pattan.net

☐ No

Other (specify):

II. PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE

Each bullet item below will be filled in with the information entered in the RTE fields in the IEP Review Present Levels tab

Include the following information related to the student:

- Present levels of academic achievement (e.g., most recent evaluation of the student, results of formative assessments, curriculum-based assessments, transition assessments, progress toward current goals)
- Present levels of functional performance (e.g., results from a functional behavioral assessment, results of ecological assessments, progress toward current goals)
- Present levels related to current postsecondary transition goals if the student's age is 14 or younger if determined appropriate by the IEP team (e.g., results of formative assessments, curriculum-based assessments, progress toward current goals)
- Parental concerns for enhancing the education of the student
- How the student's disability affects involvement and progress in the general education curriculum
- Strengths
- Academic, developmental, and functional needs related to student's disability

III. TRANSITION SERVICES - This is required for students age 14 or younger if determined appropriate by the IEP team

This area will be completed based on the data entered in the IEP Review Transition Services tab

- . If the student does not attend the IEP meeting, the school must take other steps to ensure that the student's preferences and interests are considered. Transition services are a coordinated set of activities for a student with a disability that is designed to be within a results oriented process, that is focused on improving the academic and functional achievement of the student with a disability to facilitate the student's movement from school to post school activities, including postsecondary education, vocational education, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation that is based on the individual student's needs taking into account the student's strengths, preferences, and interests.

POST SCHOOL GOALS - Based on age appropriate assessment, define and project the appropriate measurable postsecondary goals that address education and training, employment, and as needed, independent living. Under each area, list the services/activities and courses of study that support that goal. Include for each service/activity the location, frequency, projected beginning date, anticipated duration, and person/agency responsible.

For students in Career and Technology Centers, CIP Code:

Explain why the alternate assessment is appropriate:

V. GOALS AND OBJECTIVES - Include, as appropriate, academic and functional goals. Use as many copies of this page as needed to plan appropriately. Specially designed instruction may be listed with each goal/objective or listed in Section VI.

Short term learning outcomes are required for students who are gifted. The short term learning outcomes related to the student's gifted program may be listed under Goals or Short Term Objectives.

Information in this section will be completed based on the entries made in the IEP Review - Goals and Objectives tab. Mods and SDI can also be entered here.

MEASURABLE ANNUAL GOAL Include: Condition, Name, Behavior, and Criteria (Refer to Annotated IEP for description of these components)	Describe HOW the student's progress toward meeting this goal will be measured	Describe WHEN periodic reports on progress will be provided to parents	Report of Progress

SHORT TERM OBJECTIVES - Required for students with disabilities who take alternate assessments aligned to alternate achievement standards (PASA).

Short term objectives / Benchmarks

VI. SPECIAL EDUCATION / RELATED SERVICES / SUPPLEMENTARY AIDS AND SERVICES / PROGRAM MODIFICATIONS - Include, as appropriate, for nonacademic and extracurricular services and activities.

Information in section A, B, C and D and E will be completed based on the entries made in the IEP Review - Services tab.

A. PROGRAM MODIFICATIONS AND SPECIALLY DESIGNED INSTRUCTION (SDI)

- SDI may be listed with each goal or as part of the table below.
- Include supplementary aids and services as appropriate.
- For a student who has a disability and is gifted, SDI also should include adaptations, accommodations, or modifications to the general education curriculum, as appropriate for a student with a disability.

VII. EDUCATIONAL PLACEMENT

Information in this section will be filled in based on entries made on the **IEP Review - Educational Placement tab**

A. QUESTIONS FOR IEP TEAM - The following questions must be reviewed and discussed by the IEP team prior to providing the explanations regarding participation with students without disabilities.

It is the responsibility of each public agency to ensure that, to the maximum extent appropriate, students with disabilities, including those in public or private institutions or other care facilities, are educated with students who are not disabled. Special classes, separate schooling or other removal of students with disabilities from the general educational environment occurs only when the nature or severity of the disability is such that education in general education classes, EVEN WITH the use of supplementary aids and services, cannot be achieved satisfactorily.

- What supplementary aids and services were considered? What supplementary aids and services were rejected? Explain why the supplementary aids and services will or will not enable the student to make progress on the goals and objectives (if applicable) in this IEP in the general education class.
- What benefits are provided in the general education class with supplementary aids and services versus the benefits provided in the special education class?
- What potentially beneficial effects and/or harmful effects might be expected on the student with disabilities or the other students in the class, even with supplementary aids and services?
- To what extent, if any, will the student participate with nondisabled peers in extracurricular activities or other nonacademic activities?

Explanation of the extent, if any, to which the student will not participate with students without disabilities in the regular education class:

--

Explanation of the extent, if any, to which the student will not participate with students without disabilities in the general education curriculum:

--

1. Amount of special education supports

- ☐ Itinerant: Special education supports and services provided by special education personnel for 20% or less of the school day
- ☐ Supplemental: Special education supports and services provided by special education personnel for more than 20% of the day but less than 80% of the school day
- ☐ Full-Time: Special education supports and services provided by special education personnel for 80% or more of the school day

2. Type of special education supports

- ☐ Autistic Support
- ☐ Blind-Visually Impaired Support
- ☐ Deaf and Hard of Hearing Support
- ☐ Emotional Support
- ☐ Learning Support
- ☐ Life Skills Support
- ☐ Multiple Disabilities Support
- ☐ Physical Support
- ☐ Speech and Language Support

C. Location of student's program

Name of School District where the IEP will be implemented: _____

Name of School Building where the IEP will be implemented: _____

Is this school the student's neighborhood school (i.e., the school the student would attend if he/she did not have an IEP)?

- ☐ Yes
- ☐ No. If the answer is "no," select the reason why not.
- ☐ Special education supports and services required in the student's IEP cannot be provided in the neighborhood school

VIII. PENNDATA REPORTING: Educational Environment (Complete either Section A or B; Select only one Educational Environment)

Information in this section will be filled in based on entries made on the IEP Review - Educational Placement tab. The calculations will be done automatically based on the hours in the school day as defined in the SIS.

To calculate the percentage of time inside the regular classroom, divide the number of hours the student spends inside the regular classroom by the total number of hours in the school day (including lunch, recess, study periods). The result is then multiplied by 100.

SECTION A: For Students Educated in Regular School Buildings with Nondisabled Peers - Indicate the percentage of time INSIDE the regular classroom for this student:

Time spent outside the regular classroom receiving services unrelated to the student's disability (e.g., time receiving ESL services) should be considered time inside the regular classroom. Educational time spent in age-appropriate community-based settings that include individuals with and without disabilities, such as college campuses or vocational sites, should be counted as time spent inside the regular classroom.

Calculation for this Student:

Column 1	Column 2	Calculation	Indicate Percentage	Percentage Category
Total hours the student spends in the regular classroom per day	Total hours in a typical school day (including lunch, recess & study periods)	(Hours inside regular classroom ÷ hours in school day) x 100 = % (Column 1 ÷ Column 2) x 100 = %	Section A: The percentage of time student spends inside the regular classroom:	Using the calculation result - select the appropriate percentage category
			_____ % of the day	<input type="checkbox"/> INSIDE the Regular Classroom 80% or More of the Day <input type="checkbox"/> INSIDE the Regular Classroom 79-40% of the Day <input type="checkbox"/> INSIDE the Regular Classroom Less Than 40% of the Day

SECTION B: This section required only for Students Educated OUTSIDE Regular School Buildings for more than 50% of the day - select and indicate the Name of School or Facility on the line corresponding with the appropriate selection: (If a student spends less than 50% of the day in one of these locations, the IEP team must do the calculation in Section A)

<input type="checkbox"/> Approved Private School (Non Residential)	_____	<input type="checkbox"/> Other Public Facility (Non Residential)	_____
<input type="checkbox"/> Approved Private School (Residential)	_____	<input type="checkbox"/> Hospital/Homebound	_____
<input type="checkbox"/> Other Private Facility (Non Residential)	_____	<input type="checkbox"/> Correctional Facility	_____
<input type="checkbox"/> Other Private Facility (Residential)	_____	<input type="checkbox"/> Out of State Facility	_____
<input type="checkbox"/> Other Public Facility (Residential)	_____	<input type="checkbox"/> Instruction Conducted in the Home	_____

EXAMPLES for Section A: How to Calculate PennData - Educational Environment Percentages

	Column 1	Column 2	Calculation	Indicate Percentage
	Total hours the student spends in the regular classroom - per day	Total hours in a typical school day (including lunch, recess & study periods)	(Hours inside regular classroom ÷ hours in school day) x 100 = % (Column 1 ÷ Column 2) x 100 = %	Section A: The percentage of time student spends inside the regular classroom:

Example 1	5.5	6.5	$(5.5 \div 6.5) \times 100 = 85\%$	85% of the day (Inside 80% or More of Day)
Example 2	3	5	$(3 \div 5) \times 100 = 60\%$	60% of the day (Inside 79-40% of Day)
Example 3	1	5	$(1 \div 5) \times 100 = 20\%$	20% of the day (Inside less than 40% of Day)

The school district requests your consent to conduct a Gifted Multidisciplinary Evaluation (GMDE). We must have your consent before we can begin. In the evaluation, we will investigate information relevant to your child's suspected giftedness, including academic functioning, learning strengths and educational needs as shown by present levels of educational performance, assessment results, classroom observations and information from you. We will also be looking for an indication of demonstrated achievement, performance or expertise in one or more academic areas. Specific types of tests and procedures that will be used in the evaluation include the following:

Tests and Assessments Tab Check Boxes

The school district will form a Gifted Multidisciplinary Team (GMDT) to conduct this evaluation. As parent(s), you are a member of the GMDT. You will be invited to all team meetings. The multidisciplinary evaluation process will include information from parents or others who interact with the student on a regular basis, and may include information from the student if appropriate. If you want to provide written comments, reports or other information, please do so.

The Gifted Multidisciplinary Team will determine whether your child is gifted and in need of specially designed instruction. This information will be outlined in a Gifted Written Report (GWR) and will be given to the Gifted Individualized Education Plan (GIEP) Team. As parent(s), you are also a member of the GIEP team and you will be invited to all team meetings that are held. The Evaluation is to be completed and the Report is to be disseminated to you within 60 calendar days of receipt of your consent to evaluate.

Dear **Always says "Parent or Guardian"**

This letter summarizes recently developed recommendations or proposed changes for your child's education program and/or assignment.

Actions tab: Text from check box selected will print

1. ☐ Your child should begin to receive gifted education services. The school district will not proceed without your approval of this recommendation (the GIEP is attached).
2. ☐ Your child's gifted education placement or services should be changed as noted in the GIEP. The school district will proceed with this change unless you notify us with your written disapproval (the GIEP is attached). You have 10 calendar days to respond to a notice of recommended assignment sent by mail or five calendar days to respond to a notice presented in person at the conclusion of a GIEP conference. If you receive the notice in person and approve the recommended assignment within five calendar days, we may not implement the GIEP for at least five calendar days, to give you an opportunity to notify us within the five-day period of a decision to revoke the previous approval of the recommended assignment.
3. ☐ Your child is no longer in need of gifted education. We recommend current gifted education services be discontinued. The school district will proceed with this change unless you notify us with your written disapproval. You have 10 calendar days to respond to a notice of recommended assignment sent by mail or five calendar days to respond to a notice presented in person at the conclusion of a GIEP conference. If you receive the notice in person and approve the recommended assignment within five calendar days, we may not implement the GIEP for at least five calendar days, to give you an opportunity to notify us within the five-day period of a decision to revoke the previous approval of the recommended assignment.
4. ☐ Your child is graduating from high school. All gifted education services will cease at the end of the current school term.
5. ☐ Your child is not in need of gifted education and should continue in his/her present assignment.
6. ☐ The school district is refusing your request to initiate or change your child's:
